

carriers must now only file the FCC Form 481 with USAC. See *Administrative Order* at 60–62, paras. 133–34; 47 CFR 54.313–14. See also *Connect America Fund; ETC Annual Reports and Certifications*, WC Docket Nos. 10–90, 14–58, Report and Order, 32 FCC Rcd 5944, 5948, para. 15 (2017) (*ETC Reporting Streamlining Order*) (“[C]ontingent upon USAC’s completion of the rollout of an online portal for recipients of high cost services, we will no longer require ETCs to file duplicate copies of Form 481 with the FCC and with states, U.S. Territories, and/or Tribal governments beginning in 2018.”). The *Administrative Order* also made explicit that the required certification of compliance with voice and broadband benchmarks in FCC Form 481 covers the calendar year preceding the date that the FCC Form 481 is due, and is based on benchmarks released by the Commission before that calendar year (two years before the year that the FCC Form 481 is due to be submitted). See *Administrative Order* at 67, para. 150.

The Commission therefore proposes to revise this information collection, as well as the Form 481 and its accompanying instructions, to reflect these new and modified requirements.

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA), the Federal Communications Commission (FCC or Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collections. Comments are requested concerning: whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility;

the accuracy of the Commission’s burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

The FCC may not conduct or sponsor a collection of information unless it displays a currently valid Office of Management and Budget (OMB) control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

DATES: Written comments should be submitted on or before May 5, 2025. If you anticipate that you will be submitting comments but find it difficult to do so within the time period allowed by this notice, you should advise the contacts below as soon as possible.

ADDRESSES: Direct all PRA comments to Cathy Williams, FCC, via email PRA@fcc.gov and to Cathy.Williams@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Cathy Williams at (202) 418–2918.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060–0678.

Title: Part 25 of the Federal

Communications Commission’s Rules Governing the Licensing of, and Spectrum Usage by, Commercial Earth Stations and Space Stations.

Form Nos.: FCC Form 312, FCC Form 312–EZ, FCC Form 312–R and Schedules A, B and S.

Type of Review: Revision of a currently approved information collection.

Respondents: Business or other for-profit entities and not-for-profit institutions.

Number of Respondents and Responses: 3,539 respondents; 3,591 responses.

Estimated Time per Response: 0.5–80 hours per response.

Frequency of Response: On occasion, one time, and annual reporting requirements; third-party disclosure requirements; recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. The Commission has statutory authority for the information collection requirements under 47 U.S.C. 154, 301, 302, 303, 307, 309, 310, 319, 332, 605, and 721.

Total Annual Burden: 27,748 hours.

Annual Cost Burden: \$4,154,267.

Needs and Uses: On April 21, 2023, the Commission released a Report and Order, FCC 23–29, IB Docket No. 21–456, titled “Revising Spectrum Sharing Rules for Non-Geostationary Orbit, Fixed-Satellite Service Systems.” In this Report and Order, the Commission revised its rules governing spectrum sharing among a new generation of broadband satellite constellations to promote market entry, regulatory certainty, and spectrum efficiency through good-faith coordination. As relevant to this information collection, the Commission adopted rules clarifying protection obligations between non-geostationary satellite orbit, fixed-satellite service (NGSO FSS) systems authorized through different processing rounds by using a degraded throughput methodology. Specifically, the Commission required that, prior to commencing operations, an NGSO FSS licensee or market access recipient must either certify that it has completed a coordination agreement with any operational NGSO FSS system licensed or granted U.S. market access in an earlier processing round, or submit for Commission approval a compatibility showing which demonstrates by use of a degraded throughput methodology that it will not cause harmful interference to any such system with which coordination has not been completed. If an earlier-round system becomes operational after a later-round system has commenced operations, the later-round licensee or market access recipient must submit a certification of coordination or a compatibility showing with respect to the earlier-round system no later than 60 days after the earlier-round system commences operations.

Further, on November 15, 2024, the Commission released a Second Report and Order in the same rulemaking proceeding, FCC 24–117, IB Docket No. 21–456, titled “Revising Spectrum Sharing Rules for Non-Geostationary Orbit, Fixed-Satellite Service Systems.” In this Second Report and Order, the Commission revised the NGSO FSS sharing rules to clarify certain details of the degraded throughput methodology that, in the absence of a coordination agreement, must be used in compatibility analyses by NGSO FSS system grantees authorized through later processing rounds to show they can operate compatibly with, and protect, NGSO FSS systems authorized through earlier processing rounds. The Commission adopted a 3% time-weighted average throughput degradation as a long-term interference protection criterion and a 0.4% absolute

increase in link unavailability as a short-term interference protection criterion.

The relevant rule for purposes of this revised information collection is 47 CFR 25.261(d).

The new information collection requirements in this collection are needed to determine the technical qualifications of licensees and market access grantees to operate an NGSO FSS space station and to determine whether operations under an NGSO FSS authorization serve the public interest, convenience and necessity. Without such information, the Commission could not determine whether to permit respondents to provide communications services in the United States because it could not assure that incumbent NGSO FSS licensees and market access grantees are adequately protected from radiofrequency interference that could be caused by NGSO FSS satellite systems authorized through a later processing round. Therefore, the Commission would not be able to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended, and the obligations imposed on parties to the World Trade Organization Basic Telecom Agreement.

Title: Promoting Telehealth for Low-Income Consumers, COVID-19 Telehealth Program.

Form Numbers: FCC Forms 460, 461, 462, and 463.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit; Not-for-profit institutions; Federal Government; and State, Local, or Tribal governments.

Number of Respondents and Responses: 7,210 respondents; 34,553 responses.

Estimated Time per Response: 0.30-25 hours.

Frequency of Response: One-time, annual, and on occasion reporting requirements; recordkeeping requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this collection of information is contained in sections 1-4, 201-205, 214, 254, 303(r), and 403 of the Communications Act of 1934, as amended, 47 U.S.C. 151-154, 201-205, 214, 254, 303(r), and 403, and DIVISION B of the Coronavirus Aid, Relief, and

Economic Security Act, Public Law 116-136, 134 Stat. 281.

Total Annual Burden: 197,787 hours.

Total Annual Cost: No cost.

Needs and Uses: On March 31, 2020, the Commission adopted a Report and Order entitled *Promoting Telehealth for Low-Income Consumers; COVID-19 Telehealth Program*, WC Docket No. 18-213, WC Docket No. 20-89 (FCC 20-44), establishing two programs designed to assist health care providers in providing connected care services to consumers—the COVID-19 Telehealth Program and the Connected Care Pilot Program (collectively, Programs). June 2021, the Commission adopted a Second Report and Order, WC Docket No. 18-213 (FCC 21-74), that provided guidance on eligible services, competitive bidding, invoicing, and data reporting for Pilot Program participants. The information collected herein is necessary to meet the specific requirements for information that must be submitted as part of the annual and final reports to the Commission as outlined in the *Second Connected Care Report and Order*, and for the Commission to receive and evaluate data for the selected projects and ensure compliance with the Commission's rules and procedures applicable to the Connected Care Pilot Program. This submission extends the requirements for the Connected Care Pilot Program and the COVID-19 Telehealth Program.
