

The TDF is the only qualified organization that has the technical and administrative capacity to conduct the specific set of activities requested to support CDC TB and MDR-TB prevention and control activities in the Philippines under this cooperative agreement because:

1. The TDF is uniquely positioned, in terms of legal authority, ability, track record, infrastructure and credibility in the Philippines to develop and support TB and MDR-TB control activities in both public and non-governmental organization sites throughout the country.

2. The TDF has already established a framework and mechanisms to develop and implement TB and MDR-TB treatment and control activities in the Philippines, enabling it to immediately become engaged in the activities listed in this announcement.

3. The TDF has demonstrated its ability to coordinate and implement TB treatment and control activities including MDR-TB and TB/HIV co-infection within the country.

4. The TDF has a unique and unparalleled relationship with the Makati Medical Center (MMC), the Department of Health (DOH), NTP, the Tropical Disease Foundation (TDF), and the Philippines Coalition Against Tuberculosis (PhilCAT), based on a rich history of collaboration.

5. The TDF Directly Observed Treatment Short Course (DOTS) Clinic has been in existence since February 1999, in response to the need for public-private partnership in the management of TB patients in the Philippines. The clinic is a collaboration between the TDF and MMC.

6. The TDF was approved as the first pilot project worldwide to undertake DOTS-Plus by the Green Light Committee (GLC), a subgroup of the Scientific Working Group on Multi-Drug Resistant Tuberculosis of the WHO. The MMC DOTS-Plus clinic is the only facility in the Philippines providing treatment to MDR-TB patients.

7. The TDF has the ability to collect information, train staff and advocate for policy based on the experiences learned implementing DOTS-Plus activities.

8. The specific services that the TDF will deliver are directly associated with, and complement, other ongoing CDC prevention strategies and activities in the Philippines.
