SUPPLEMENTARY INFORMATION: On April 26, 2019, the Office of Management and Budget published OMB memorandum 19-16, Centralized Mission Support Capabilities for the Federal Government (available at <https://www.whitehouse.gov/wp-content/uploads/2019/04/M-19-16.pdf>). Mission support business standards, established and agreed to by agencies, using the Federal Integrated Business Framework (FIBF) website at <https://ussm.gsa.gov/fibf/>, enable the Federal Government to better coordinate on the decision-making needed to determine what can be adopted and commonly shared. These business standards are an essential first step towards agreement on outcomes, data, and cross-functional end-to-end processes that will drive economies of scale and leverage the Government's buying power. The business standards will be used as the foundation for common mission support services shared by Federal agencies.

GSA serves as the TRT business standards lead on the Business Standards Council (BSC). The goal of the travel and expense management business standards is to drive travel consistency, equity, and standardization across the Federal Government.

GSA is seeking public feedback on these draft business standards (*i.e.*, functions and activities, business

capabilities, business use cases, standard data elements, service measures, and business information exchange standards between the travel solution and financial management solution(s)), including comments on understandability of the standards, suggested changes, and usefulness of the draft standards to industry and agencies.

Guiding questions in standard development include:

- Do the draft business standards appropriately document the business processes covered?
- Are the draft business standards easy to understand?
- Will your organization be able to show how your solutions and/or services can meet these draft business standards?
- What would you change about the draft business standards? Is there anything missing?

Comments will be used in formulation of the final business standards.

Krystal J. Brumfield,

Associate Administrator, Office of Government-wide Policy, General Services Administration.

for Disease Control and Prevention, 3719 North Peachtree Road, Building 100, Chamblee, Georgia 30341, or emailed (recommended) to acbcyw@cdc.gov.

FOR FURTHER INFORMATION CONTACT:

Kimberly E. Smith, MBA, MHA, Designated Federal Officer, National Center for Chronic Disease Prevention and Health Promotion, CDC, 4770 Buford Highway NE, Mailstop S107-4, Atlanta, Georgia 30341; 404-498-0073; acbcyw@cdc.gov.

SUPPLEMENTARY INFORMATION:

Nominations are being sought for individuals who have expertise and qualifications necessary to contribute to the accomplishments of the committee's objectives. Nominees will be selected based on expertise in the fields of breast health, breast cancer, disease prevention and risk reduction, survivorship (including metastatic breast cancer), hereditary breast and ovarian cancer, or in related disciplines with a specific focus on young women. Persons with personal experience with early onset breast cancer are also eligible to apply. This includes, but may not be limited to breast cancer survivors <45 years of age and caregivers of said persons. Federal employees will not be considered for membership. Members may be invited to serve up to four-year terms.

Selection of members is based on candidates' qualifications to contribute to the accomplishment of ACBCYW objectives <http://www.cdc.gov/maso/facm/facmacbcyw.html>.

The U.S. Department of Health and Human Services policy stipulates that committee membership be balanced in terms of points of view represented, and the committee's function. Appointments shall be made without discrimination on the basis of age, race, ethnicity, gender, sexual orientation, gender identity, HIV status, disability, and cultural, religious, or socioeconomic status. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government. Current participation on federal workgroups or prior experience serving on a federal advisory committee does not disqualify a candidate; however, HHS policy is to avoid excessive individual service on advisory committees and multiple committee memberships. Committee members are Special Government Employees, requiring the filing of financial disclosure reports at the beginning and annually during their terms. CDC reviews potential candidates for ACBCYW membership each year, and provides a slate of nominees for consideration to the Secretary of HHS for final selection. HHS notifies selected

candidates of their appointment near the start of the term in November 2023, or as soon as the HHS selection process is completed. Note that the need for different expertise varies from year to year and a candidate who is not selected in one year may be reconsidered in a subsequent year. Nominees must be U.S. citizens, and cannot be full-time employees of the U.S. Government. Candidates should submit the following items:

- Current curriculum vitae, including complete contact information (telephone numbers, mailing address, email address).
- At least one letter of recommendation from person(s) not employed by the U.S. Department of Health and Human Services. (Candidates may submit letter(s) from current HHS employees if they wish, but at least one letter must be submitted by a person not employed by an HHS agency (e.g., CDC, NIH, FDA, etc.).
- A short biography (150 words or less).

Nominations may be submitted by the candidate him- or herself, or by the person/organization recommending the candidate.
