

goods and services. By neutralizing the effect of export credit insurance and guarantees offered by foreign governments and by absorbing credit risks that the private sector will not accept, Ex-Im Bank enables U.S. exporters to compete fairly in foreign markets on the basis of price and product. This collection of information is used by exporters to convey legal rights to, and describe the duties and obligations that have to be met by their financial institution lender in order to share insurance policy proceeds from Ex-Im Bank approved insurance claims.

The changes that were made to this agreement include language clarifications and changes to the descriptions of the rights and obligations of the parties to the agreement. The changes were made to provide clarity and specificity for exporters/lenders based on issues that have arisen through either exporter/lender inquiries or interpretations made during processing of claims. The language of the existing agreement frequently results in improper documentation by our lender partners which increases claim processing times and causes significant resource burdens to Ex-Im Bank. The language in the existing agreement also creates the potential for fraud, resulting in losses to Ex-Im Bank. Recent changes to the Ex-Im Bank Charter (12 U.S.C. 635(i)(2)(i) and a-6(b)) mandate that Ex-Im Bank must develop practices to identify, prevent and monitor for potential fraud. Therefore changes to the agreement were required to comply with this mandate and protect the U.S. taxpayer from fraud related loss. In addition, the changes to this agreement protect Ex-Im Bank's lender partners who are parties to the agreement, allowing us to maintain our relationships with our lender partners, and fulfill our agency mission to finance exports (through our lender partners) and create jobs. Due to the Ex-Im Bank Charter mandate to reduce fraud, the changes in the form need to be immediately disseminated to exporters/lenders so that they can change practices where needed, especially where documentation of export transactions is involved.
