Form Numbers: Online Collection.

Type of Review: The review is for the modification and renewal of the Survey of Unmanned-Aircraft-Systems Operators.

Background: We conducted the Survey of UAS Operators for 2021 and 2022 UAS activity under the original information collection request granted in March of 2021. These surveys utilized a stratified random sampling design with the operator's county of residence and type of operator as strata. The survey collected information through a questionnaire with 76 questions, but due to the skip logic of the questionnaire, the average respondent only answered 16 questions. The 2021 and 2022 surveys received 17,736 and 22,846 responses,
