

accordance with 49 CFR part 512.⁵ This confidential information would be held by secure electronic means in NHTSA's database systems. As for public information, NHTSA intends to use the information to provide more credit reports on the PIC such as aggregated credit transactions or data comparable to the credit information which EPA makes available to the public.

In response to NHTSA new templates, manufacturers have identified errors and offered suggestions for improvements. As a result, in the August 2021 CAFE NPRM,⁶ NHTSA proposed changes to its new reporting and credit templates as well as established a new standardized template to collect information on the monetary and non-monetary costs of credit trades. NHTSA has identified a series of monetary and non-monetary factors which it believes to be important to the costs associated with credit trading in the CAFE program which predicated the development of its new credit value template.⁷ The agency believes this information will allow for a better assessment of the true costs of compliance. NHTSA further notes that greater government oversight is needed over the CAFE credit market and it needs to understand the full range of complexity in transactions, monetary and non-monetary, in addition to the range of partnerships and cooperative agreements between credit account holders—which may impact the price of credit trades.⁸ NHTSA proposed that manufacturers should start using both credit templates starting September 1, 2022. Note, the credit value template is available for download through the PIC located at: https://one.nhtsa.gov/cape_pic/home—see “Light Duty Templates: NHTSA CAFE Credit Value Reporting Template”.

In the August 2021 rulemaking, NHTSA also committed to demonstrate its templates through a workshop designed to give manufacturers an open forum for communicating directly with the agency. This notice satisfies that obligation and announces the details of the workshop.
