**SUPPLEMENTARY INFORMATION:**

Title: 7 CFR 1940 Subpart G,  
“Environmental Program.”

OMB Number: 0575–0094.

Expiration Date of Approval: May 31,  
2013.

Type of Request: Extension of a  
currently approved information  
collection.

Abstract: The information collection  
under OMB Number 0575–0094 enables  
the Agencies to effectively administer  
the policies, methods, and  
responsibilities for compliance with the  
NEPA and other applicable  
environmental laws, executive orders,  
and regulations.

The NEPA requires Federal agencies  
to consider the potential environmental  
impacts of proposed major Federal  
actions on the quality of the human  
environment during agency planning  
and decision-making processes. For  
Rural Development to comply, it is  
necessary that they have information on  
the types of environmental resources on  
site or in the vicinity of an Applicant's  
proposed project that could be impacted  
by Rural Development Federal action.  
The Applicant is the logical source for  
providing this information. In fact, the  
vast majority of Federal Agencies that  
assist non-Federal Applicants in  
sponsoring projects require their  
Applicants to submit such  
environmental data to allow the agency  
to make an informed decision.

Both Rural Development provide  
forms and/or other guidance to assist in  
the collection and submission of  
necessary information. The information  
is usually submitted via email, U.S.  
Postal Service, or hand delivery to the  
appropriate Agency office.

The information is used by the  
Agency official who is processing the  
application for financial assistance or  
request for approval. Having  
environmental information on the  
Applicant's proposed project and the  
construction and operation activities  
enables the Agency official to determine  
the magnitude of any potential  
environmental impacts and to take such  
impacts into consideration during  
planning and decision-making as  
required by NEPA. The analysis of  
potential environmental impacts of an  
Applicant's proposed project and Rural  
Development decision is a full  
disclosure process, and therefore, can  
involve public information meetings  
and public notification.

Estimate of Burden: Public reporting  
burden for this collection of information  
is estimated to average 3.7 hours per  
response.

Respondents: Individuals, non-  
Federal agency governments, farmers,  
ranchers, business owners, for-profit or  
non-profit institutions, and  
organizations.

Estimated Number of Respondents:  
1,684.

Estimated Number of Responses per  
Respondent: 1.

Estimated Number of Responses:  
3,344.

Estimated Total Annual Burden on  
Respondents: 12,470 hours.

Copies of this information collection  
can be obtained from Jeanne Jacobs,  
Regulations and Paperwork  
Management Branch, at (202) 692–0035.

Comments: Comments are invited on:  
(a) Whether the proposed collection of  
information is necessary for the proper  
performance of the functions of the  
Agencies, including whether the  
information will have practical utility;  
(b) the accuracy of Agencies' estimate of  
the burden of the proposed collection of  
information including the validity of the  
methodology and assumptions used; (c)  
ways to enhance the quality, utility and  
clarity of the information to be  
collected; and (d) ways to minimize the  
burden of the collection of information  
on those who are to respond, including  
through the use of appropriate  
automated, electronic, mechanical, or  
other technological collection  
techniques or other forms of information  
technology.

Comments may be sent to Jeanne
