

rotensis, *Osmoxylon mariannense*, and *Tabernaemontana rotensis*)*.

(5) Resubmitted petition findings for 30 species (these species are identified with the code "C*" in Table 1 of the CNOR published in the **Federal Register** (67 FR 40657, June 13, 2002)).

We have endeavored to make our listing actions as efficient and timely as possible, given the requirements of the relevant laws and regulations, and constraints relating to workload and personnel. We are continually considering ways to streamline processes or achieve economies of scale, such as by batching related actions together where feasible. Given our limited budget for implementing section 4 of the Act, the actions described above collectively constitute expeditious progress.

Conclusion

The information provided above amends our finding, published January 16, 2003 (68 FR 2283), that listing the Sierra Nevada DPS of the mountain yellow-legged frog is warranted but precluded. Specifically, the information amends the finding to include information pertaining to preclusion and expeditious progress. Thus this amended finding fully satisfies the requirements of section 4(b)(3)(B)(iii) of the Act. We note also that since publication of our initial warranted but precluded finding, we have made resubmitted petition findings pursuant to the requirement of section 4(b)(3)(C)(i) of the Act, and published these in the **Federal Register** on May 4, 2004 (69 FR 24875), May 11, 2005 (70 FR 24869), and September 12, 2006 (71 FR 53755). In each case we have found that the petitioned action is warranted but precluded, and our finding has included information demonstrating preclusion and expeditious progress.

We will continue to monitor the status of this species and its habitat. Should an emergency situation develop, we will act to provide immediate protection, if warranted. We intend that any proposed listing action for the Sierra Nevada DPS of the mountain yellow-legged frog will be as accurate as possible. Therefore, we will continue to accept additional information and comments from all concerned governmental agencies, the scientific community, industry, or any other interested party concerning the status of this species.

Authority

The authority for this action is the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*).

As part of that proposal, NMFS announced a public comment period to end on June 19, 2007, and then extended the comment period to August 3, 2007. NMFS has received requests for public hearings on this issue. In response, NMFS announced two public hearings to be held in Alaska in a previous **Federal Register** notice. In addition, NMFS is announcing a separate hearing in this notice that will be held in Silver Spring, Maryland, in order to provide greater opportunity for public comment.

DATES: The hearing will be held on July 31, 2007, from 3:30 to 6:30 p.m. in Silver Spring, MD. Written comments must be received by August 3, 2007.

SUPPLEMENTARY INFORMATION:

Background

On April 20, 2007, NMFS published a proposed rule (72 FR 19854) to list the Cook Inlet beluga whale as an endangered species under the Endangered Species Act of 1973 (ESA), as amended. This action followed completion of the Cook Inlet beluga whale status review, which found this population to be at risk of extinction within the next 100 years and described NMFS' determination that this population constitutes a "species", or distinct population segment under the ESA.

On June 13, 2007, in response to requests, NMFS announced that two public hearings would be held in Alaska regarding the proposed listing of the Cook Inlet beluga whale (72 FR 32605). Following this announcement, NMFS received an additional request for a public hearing to be held in Silver Spring. This request was submitted beyond the 45-day statutory deadline for public hearing requests (16 U.S.C. 1533(b)(5)(E)). However, NMFS has decided to voluntarily honor the request in order to provide additional opportunities for public comment.

Public Hearings

Joint Commerce-Interior ESA implementing regulations state that the Secretary shall promptly hold at least one public hearing if any person requests one within 45 days of publication of a proposed regulation to list a species or to designate critical habitat (see 50 CFR 424.16(c)(3)). In past ESA rule-makings NMFS has conducted traditional public hearings, consisting of recorded oral testimony from interested individuals. This format, although providing a means for public input,

does not provide opportunities for dialogue and information exchange. NMFS believes that the traditional public hearing format can be improved upon by also including a brief presentation on the results of the Cook Inlet beluga Status Review and other topics of interest.

The preferred means for providing public comment to the official record is via written testimony prepared in advance of the meeting which may also be presented orally. Blank "comment sheets" will be provided at the meetings for those without prepared written comments, and opportunity will also be provided for additional oral testimony.

There is no need to register for these hearings.

In scheduling these public hearings, NMFS has anticipated that many affected stakeholders and members of the public may prefer to discuss the proposed listing directly with staff during the public comment period. However, these public meetings are not the only opportunity for the public to provide input on this proposal. The public and stakeholders are encouraged to continue to comment and provide input to NMFS on the proposal (via correspondence, e-mail, and the Internet; see **ADDRESSES**) up until the scheduled close of the comment period on August 3, 2007.
