Obligation to Respond: Mandatory—The ARMIS reporting requirements were established by the Commission in 1987 to facilitate the timely and efficient analysis of carrier operating costs and rates of return, to provide an improved basis for audits and other oversight functions, and to enhance the Commission's ability to quantify the effects of alternative policy proposals. Additional ARMIS Reports were added in 1991 and 1992. Incumbent LECs must submit the ARMIS reports to the Commission annually on or before April 1. See Reporting Requirements of Certain Class A and Tier I Telephone Companies (Parts 31, 43, 67 and 69 of the FCC's Rules), Order, 2 FCC Rcd 5770 (1987).

Needs and Uses: FCC Report 43-02 is prescribed for each incumbent local

exchange carrier with annual operating revenues for the preceding year equal to or above the indexed revenue threshold. The report collects the operating results of the carrier's total activities for every account in the Uniform System of Accounts at the operating company level, as specified in Part 32 of the Commission's Rules. There are no changes to the ARMIS Report 43-02.

ARMIS Report 43-05 is prescribed for every mandatory price cap ILEC and local exchange carriers electing the incentive regulation plan. This report is designed to capture trends in service quality under price cap regulation. It provides service quality information in the areas of interexchange access service installation and repair intervals, local service installation and repair intervals, trunk blockage, and total switch downtime for price cap companies. We are adjusting the number of respondents submitting the 43-05 from 14 to 15 to reflect a carrier that was not included in the prior approval process.

ARMIS Report 43-07 is prescribed for every ILEC for whom price cap regulation is mandatory. The report is designed to capture trends in telephone industry infrastructure development under price cap regulation. It provides switch deployment and capabilities data. The information is also part of the data necessary to support the Commission's audit and other oversight functions. The data provide the necessary detail to enable the Commission to fulfill its regulatory responsibility. There are no changes to the ARMIS Report 43-07.
