

Shinhan made home market sales of the foreign like product during the POR at prices below their costs of production within the meaning of section 773(b) of the Act. For these final results, we performed the cost test following the same methodology as discussed in the *Preliminary Results*. In accordance with sections 773(b)(1) and (2) of the Act, we disregarded certain of Ehwa's and Shinhan's sales in the home market that were made at below-cost prices. Because Hyosung failed to provide responses, we were unable to conduct a sales below cost investigation for Hyosung.

Final Results of the Review

As a result of the administrative review, we determine that the following weighted-average dumping margins exist for the period November 1, 2010, through October 23, 2011:

Exporter/Manufacturer	Margin (percent)
Ehwa Diamond Industrial Co., Ltd	1.45
Hyosung Diamond Industrial Co., Ltd, Western Diamond Tools Inc., and Hyosung D&P Co., Ltd	120.90
Shinhan Diamond Industrial Co., Ltd. and SH Trading, Inc	0.00

Assessment Rates

The Department shall determine, and U.S. Customs and Border Protection (CBP) will assess, antidumping duties on all appropriate entries in accordance with 19 CFR 351.212(b)(1). On October 24, 2011, the U.S. Court of International Trade preliminarily enjoined liquidation of entries that are subject to the final determination.⁸ Accordingly, the Department will not instruct CBP to assess antidumping duties pending resolution of the associated litigation.

Pursuant to 19 CFR 351.212(b)(1), for all sales made by the respondents for which they have reported the importer of record and the entered value of the U.S. sales, we have calculated importer-specific assessment rates based on the ratio of the total amount of antidumping duties calculated for the examined sales to the total entered value of those sales. Where the respondent did not report the entered value for U.S. sales to an importer, we have calculated importer-specific assessment rates for the merchandise in question by aggregating the dumping margins calculated for all U.S. sales to each importer and dividing

this amount by the total quantity of those sales.

To determine whether the duty assessment rates were *de minimis*, in accordance with the requirement set forth in 19 CFR 351.106(c)(2), the Department calculated importer-specific *ad valorem* ratios based on the entered value or the estimated entered value, when entered value was not reported. Pursuant to 19 CFR 351.106(c)(2), we will instruct CBP to liquidate without regard to antidumping duties any entries for which the assessment rate is *de minimis* (i.e., less than 0.50 percent).

The Department clarified its "automatic assessment" regulation on May 6, 2003.⁹ This clarification will apply to entries of subject merchandise during the POR produced by Ehwa and Shinhan for which these companies did not know that their merchandise was destined for the United States. In such instances, we will instruct CBP to liquidate unreviewed entries at the all-others rate if there is no rate for the intermediate involved in the transaction. For a full discussion of this clarification, see *Assessment Policy Notice*.

Cash Deposit Requirements

Effective October 24, 2011, the Department revoked the antidumping duty order on diamond sawblades from Korea, pursuant to a proceeding under section 129 of the Uruguay Round Agreements Act to implement the findings of the World Trade Organization dispute settlement panel in United States—*Use of Zeroing in Anti-Dumping Measures Involving Products from Korea* (WTDS402/R) (January 18, 2011).¹⁰ Consequently, no cash deposits are required on imports of subject merchandise.

Notification to Interested Parties

This notice serves as the only reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3). Timely written notification of return/destruction of APO materials or conversion to judicial protective order is hereby requested. Failure to comply

with the regulations and the terms of an APO is a sanctionable violation.

These final results of review are issued and published in accordance with sections 751(a)(1) and 777(i)(1) of the Act.

ACTION: Notice of SEDAR 34 assessment process webinars for Highly Migratory Species (HMS) Atlantic Sharpnose (*Rhizoprionodon terraenovae*) and Bonnethead (*Sphyrna tiburo*) sharks.

SUMMARY: The SEDAR 34 assessment of HMS Atlantic Sharpnose and Bonnethead sharks will consist of an in-person workshop and a series of webinars. This notice is for the webinars associated with the assessment portion of the SEDAR process. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 34 Assessment Workshop webinars will be held on: July 18, 2013; July 30, 2013; and September 5, 2013. All webinars are

scheduled from 10 a.m. until 1 p.m., Central Standard Time (CST).

ADDRESSES:

Meeting address: The meetings will be held via a GoToWebinar Conference. The webinars are open to the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, N. Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; telephone: (843) 571-4366; email: Julie.neer@safmnc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions, have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop; and (2) a series of webinars. The product of the Data/Assessment Workshop is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include: data collectors and database managers; stock assessment scientists; biologists, and researchers; constituency representatives including fishermen, environmentalists, and non-governmental organizations (NGOs); international experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Assessment Process webinars are as follows:

1. Participants will use datasets and initial assessment analysis recommended from the in-person workshop to employ assessment models to evaluate stock status, estimate

population benchmarks and management criteria, and project future conditions.

2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during these meetings. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 10 business days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Permits; Foreign Fishing

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; request for comments.

SUMMARY: NMFS publishes for public review and comment information regarding a permit application for transshipment of Atlantic herring by Canadian vessels, submitted under provisions of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). This action is necessary for NMFS to make a determination that the permit application can be approved.

DATES: Written comments must be received by July 2, 2013.

ADDRESSES: Written comments on this action, identified by RIN 0648-XC034, should be sent to Mark Wildman in the NMFS Office of International Affairs at 1315 East-West Highway, Silver Spring, MD 20910 (phone: (301) 427-8386, fax: (301) 713-2313, email: mark.wildman@noaa.gov).

SUPPLEMENTARY INFORMATION:

Background

Section 204(d) of the Magnuson-Stevens Act (16 U.S.C. 1824(d)) authorizes the Secretary of Commerce (Secretary) to issue a transshipment permit authorizing a vessel other than a vessel of the United States to engage in fishing consisting solely of transporting fish or fish products at sea from a point within the United States Exclusive Economic Zone (EEZ) or, with the concurrence of a state, within the boundaries of that state, to a point outside the United States. In addition, Public Law 104-297, section 105(e), directs the Secretary to issue section 204(d) permits for up to 14 Canadian transport vessels to receive Atlantic herring harvested by United States fishermen and to be used in sardine processing. Transshipment must occur from within the boundaries of the State of Maine or within the portion of the EEZ east of the line 69 degrees 30 minutes west and within 12 nautical miles from Maine's seaward boundary.

Section 204(d)(3)(D) of the Magnuson-Stevens Act provides that an application may not be approved until the Secretary determines that "no owner or operator of a vessel of the United States which has adequate capacity to perform the transportation for which the application is submitted has indicated . . . an interest in performing the transportation at fair and reasonable rates." NMFS is publishing this notice as part of its effort to make such a determination with respect to the application described below.

Summary of Application

NMFS received an application requesting authorization for five Canadian transport vessels to receive transfers of herring from United States purse seine vessels, stop seines, and weirs for the purpose of transporting the herring to Canada for processing. The transshipment operations will occur within the boundaries of the State of Maine or within the portion of the EEZ east of the line 69°30' W longitude and
