

(1) *Demonstrating compliance.* To demonstrate compliance in each fiscal year a State qualifies as a high fatality rate State, the State shall submit a plan for grant expenditures that is approved by the agency and that expends funds in accordance with § 1313.4. The plan must allocate at least 50 percent of the funds to conduct a high visibility impaired driving enforcement campaign in accordance with § 1313.6(a) and include information that satisfies the planning requirements of § 1313.6(a)(3)(iii).

§ 1313.8 Award procedures.

In each Federal fiscal year, grants will be made to eligible States that satisfy the requirements of § 1313.4(a), subject to the requirements of § 1313.4(b) and (c). The release of grant funds under this part shall be subject to the availability of funding for that fiscal year.

■ 4. Appendix to part 1313 is being republished to read as follows:

Appendix to Part 1313—Tamper Resistant Driver's License

A tamper resistant driver's license or permit is a driver's license or permit that has one or more of the following security features:

- (1) Ghost image.
- (2) Ghost graphic.
- (3) Hologram.
- (4) Optical variable device.
- (5) Microline printing.
- (6) State seal or a signature which overlaps the individual's photograph or information.
- (7) Security laminate.
- (8) Background containing color, pattern, line or design.
- (9) Rainbow printing.
- (10) Guilloche pattern or design.
- (11) Opacity mark.
- (12) Out of gamut colors (i.e., pastel print).
- (13) Optical variable ultra-high-resolution lines.
- (14) Block graphics.
- (15) Security fonts and graphics with known hidden flaws.
- (16) Card stock, layer with colors.
- (17) Micro-graphics.
- (18) Retroreflective security logos.
- (19) Machine readable technologies such as magnetic strips, a 1D bar code or a 2D bar code.

Coast Guard

33 CFR Part 117

[CGD05–06–040]

RIN 1625–AA–09

Drawbridge Operation Regulations; Potomac River, Between Maryland and Virginia

AGENCY: Coast Guard, DHS.

ACTION: Notice of temporary deviation from regulations.

SUMMARY: The Commander, Fifth Coast Guard District, has approved a temporary deviation from the regulations governing the operation of the Woodrow Wilson Memorial (I–95) Bridge, mile 103.8, across the Potomac River between Alexandria, Virginia and Oxon Hill, Maryland. This deviation allows the drawbridge to remain closed-to-navigation from 8 p.m. on June 9, 2006, until 5 a.m. on June 12, 2006; and from 8 p.m. on July 14, 2006, until 5 a.m. on July 17, 2006, to facilitate the Outer and Inner Loop shifts of vehicular traffic for the new Woodrow Wilson Bridge construction project.

DATES: This deviation is effective from 8 p.m. on June 9, 2006, until 5 a.m. on July 17, 2006.

ADDRESSES: Materials referred to in this document are available for inspection or copying at Commander (dpb), Fifth Coast Guard District, Federal Building, 1st Floor, 431 Crawford Street, Portsmouth, VA 23704–5004 between 8 a.m. and 4 p.m., Monday through Friday, except Federal holidays. The telephone number is (757) 398–6222. Commander (dpb), Fifth Coast Guard District maintains the public docket for this temporary deviation.

FOR FURTHER INFORMATION CONTACT: Waverly W. Gregory, Jr., Bridge

Administrator, Fifth Coast Guard District, at (757) 398–6222.

SUPPLEMENTARY INFORMATION: The existing Woodrow Wilson Memorial (I–95) Bridge has a vertical clearance in the closed position to vessel of 50 feet at mean high water and 52 feet at mean low water.

Coordinators for the construction of the new Woodrow Wilson Bridge Project requested a temporary deviation from the current operating regulation for the existing Woodrow Wilson Memorial (I–95) Bridge set out in 33 CFR 117.255(a). The coordinators requested the temporary deviation to close the existing drawbridge to navigation to accommodate the shifting of vehicular traffic on the Outer and Inner Loops of the Capital Beltway/I–95 North. The Outer and Inner Loops of the Capital Beltway/I–95 North will be reduced from three lanes to only one lane between the Route 1 Interchange and the Wilson Bridge. Project traffic engineers anticipate traffic impacts to peak on Saturday afternoon, with 10 to 15 mile backups and delays of 60 to 90 minutes. Maintaining the existing drawbridge in the closed-to-navigation position from 8 p.m. on Friday, June 9, 2006, through 5 a.m. on Monday, June 12, 2006 and from 8 p.m. on Friday, July 14, 2006, through 5 a.m. on Monday, July 17, 2006, will help reduce the impact to vehicular traffic during these phases of new bridge construction.

The Coast Guard has informed the known users of the waterway of the closure period for the bridge so that these vessels can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(c), this work will be performed with all due speed in order to return the bridge to normal operation as soon as possible. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: April 13, 2006.

Waverly W. Gregory, Jr.,

Chief, Bridge Administration Branch, Fifth Coast Guard District.
