

of approximately \$9.1 million (as of year end 2001) and include approximately 4,300 poles, less than 800 miles of primary and secondary wires attached to those poles, approximately 2,400 pad-mounted and pole-mounted transformers, street lights, underground conduit, customer service lines, and customer meters. Applicants state that detailed field inventory work is being done to identify the exact figures of the various types of assets to be transferred. Also being sold or transferred incidental to the sales transaction are accounts receivable from the transferred customers, various pole attachment agreements with third parties who have equipment attached to the transferred poles, easements and rights of way, and approximately 11 acres of unimproved land.

The total consideration for the transaction is \$23.9 million, of which \$9.1 million was the approximate net book value as of year-end 2001 of the assets to be transferred. Applicants are in the process of determining additions, prior retirements and post 2001 depreciation. A significant, but not specifically quantified, portion of the consideration is for the loss of future income from the customers being transferred.

The transaction is proposed following a condemnation action initiated by Vineland in a New Jersey state court. Various pleadings were filed by the city and ACE in which expert testimony was offered by both parties on the value of what was sought to be condemned based on a variety of valuation methods, including depreciated book value of the assets, replacement costs of the assets, the present value analyses of the future stream of income from the transferred customers, and other considerations. A settlement of the condemnation action was negotiated and executed on March 13, 2002. The settlement provided for the sale of assets and transfer of the customers from ACE to VMEU, effective as of a condemnation date to be selected. Between March 13, 2002, and the present, ACE has been constructing the facilities necessary to reconfigure its system and doing other work necessary to permit a smooth transition of customer records, customer billing and similar matters.

Under the transition plan, customers are being transferred to VMEU in advance of the transfer of title to the utility assets. Under the settlement agreement and the transition plan, Vineland has made payments to ACE totaling \$12.4 million and is expected to make an additional payment of \$11 million sometime in April 2004. Title to the utility assets has not been

transferred but is expected to be transferred in early June 2004. A final payment of approximately \$500,000 will be made six months after the transfer date.

SECURITIES AND EXCHANGE COMMISSION

[File No. 500-1]

Vaso Active Pharmaceuticals, Inc.; Order of Suspension of Trading

April 4, 2004.

It appears to the Securities and Exchange Commission that there is a lack of current and accurate information concerning the securities of Vaso Active Pharmaceuticals, Inc. ("VAPH") because of questions regarding the accuracy of assertions by VAPH and by others, in press releases, its annual report, its registration statement and public statements to investors concerning, among other things: (1) FDA approval of certain key products, and (2) the regulatory consequences of the future application of their primary product.

The Commission is of the opinion that the public interest and the protection of investors require a suspension of trading in the securities of the above-listed company.

Therefore, it is ordered, pursuant to section 12(k) of the Securities Exchange Act of 1934, that trading in the above-listed company is suspended for the period from 9:30 a.m. EST on Thursday, April 1, 2004 through 11:59 p.m. EDT, on Thursday, April 15, 2004.

By the Commission.

Jill M. Peterson,

Assistant Secretary.
