

PHMSA proposes replacing the collection of “pipe grade” with the collection of the SMYS in pounds per square inch gauge (psig) when the “pipe material” is steel. Collecting “SMYS” allows stakeholders to see the actual numeric value instead of inferring the value from the “pipe grade” text field. When “SMYS” is unknown, PHMSA proposes operators report 9.999 psig which is well below any actual value for pipeline steel.

D. Phase 3

In the April 11, 2019, **Federal Register** notice that led to the January 2020 OMB approval, Phase 3 consisted of implementing new positional accuracy standards of +/- 50 or 100 feet seven years after OMB approval. PHMSA will require NPMS data submittals to meet these standards in 2027.

E. NPMS Attribute Standards Adjustments

Under the current approval of this information collection, wall thickness is collected as a number when known and text is entered when unknown. This paradigm creates unnecessary work for both PHMSA and pipeline operator GIS staff since sometimes the attribute would be text and sometimes numeric. PHMSA proposes that when the wall thickness is unknown, operators report the wall thickness as 9.999.

The current approval of this information collection states that the FRP sequence number is required for applicable liquid segments per 49 CFR part 194. In the NPMS Attribute Standards document, PHMSA did not list the commodity values for which the FRP sequence number is required. PHMSA proposes modifying the NPMS Attribute Standards document by listing onshore crude oil and onshore refined products as the pipeline segments requiring the FRP sequence number. In some cases, the operator may be required to report a hazardous liquid pipeline to the NPMS before obtaining an FRP sequence number from PHMSA. PHMSA also proposes that operators enter 9.999 for onshore crude oil and onshore refined products segments without an FRP sequence number. An updated NPMS Attribute Standards document reflecting the changes proposed by PHMSA is included in Docket No. PHMSA–2021–0085.

III. Summary of Impacted Collection

Section 1320.8(d), Title 5, Code of Federal Regulations, requires PHMSA to provide interested members of the public and affected agencies an opportunity to comment on information

collection and recordkeeping requests. This notice identifies an information collection request that PHMSA will submit to OMB for revision.

The following information is provided for this information collection: (1) Title of the information collection; (2) OMB control number; (3) Current expiration date; (4) Type of request; (5) Abstract of the information collection activity; (6) Description of affected public; (7) Estimate of total annual reporting and recordkeeping burden; and (8) Frequency of collection.

PHMSA will request a three-year term of approval for this information collection. PHMSA requests comments on the following information:

1. *Title:* National Pipeline Mapping System Program.

OMB Control Number: 2137–0596.

Expiration Date: 1/31/2023.

Type of Request: Revision of a previously approved information collection.

Abstract: The Pipeline Safety Improvement Act of 2002 (Pub. L. 107–355), 49 U.S.C. 60132, “National Pipeline Mapping System,” requires the operator of a pipeline facility (except distribution lines and gathering lines) to provide information to PHMSA. Each operator is required to submit geospatial data appropriate for use in the National Pipeline Mapping System or data in a format that can be readily converted to geospatial data; the name and address of the person with primary operational control (to be known as its operator); and a means for a member of the public to contact the operator for additional information about the pipeline facilities it operates. Operators would submit the requested data elements once and make annual updates to the data if necessary. These data elements strengthen the effectiveness of PHMSA’s risk rankings and evaluations, which are used as a factor in determining pipeline inspection priority and frequency; allow for more effective assistance to emergency responders by providing them with a more reliable, complete data set of pipelines and facilities; and provide better support to PHMSA’s inspectors by providing more accurate pipeline locations and additional pipeline-related geospatial data that can be linked to tabular data in PHMSA’s inspection database.

This proposed revision would require operators to submit geospatial data for MCAs, as defined in 49 CFR part 192, and data based on the applicability of § 192.710 assessments outside of HCAs. This revision would also require operators to submit the data element “SMYS” in psig in place of submitting data on pipe grade. PHMSA does not

expect operators to incur additional burden due to the inclusion of these new and revised elements. PHMSA believes that the annual burden allotted for this information collection is sufficient for operators to include the newly requested data elements. A detailed breakdown of the estimated burden for this information collection can be found at www.regulations.gov.

Respondents: Operators of gas transmission, hazardous liquid, or liquefied natural gas pipeline facilities.

Annual Reporting and Recordkeeping Burden:

Estimated Number of Responses: 1,346 responses.

Estimated Total Annual Burden: 162,208 hours.

Frequency of Collection: Annually.

Comments are invited on:

(a) The need for the renewal and revision of this collection of information for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(b) The accuracy of the Agency’s estimate of the burden of the proposed collection of information,

(c) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(d) Ways to minimize the burden of the collection of information on those who are required to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued in Washington, DC, on March 7, 2022, under authority delegated in 49 CFR 1.97.

Alan K. Mayberry,

Associate Administrator for Pipeline Safety.

BILLING CODE 4910–60–P

DEPARTMENT OF THE TREASURY

United States Mint

Establish Price for United States Mint Numismatic Product

AGENCY: United States Mint, Department of the Treasury.

ACTION: Notice.

SUMMARY: The United States Mint is announcing pricing for the following new United States Mint numismatic product in accordance with the table below:

SKU	Product	Price
22RC	2022 Limited Edition Silver Proof Set™.	\$201.00

FOR FURTHER INFORMATION CONTACT:

Anne Janeski, Marketing Specialist, Sales and Marketing 202-306-9666; United States Mint; 801 9th Street NW; Washington, DC 20220.

(Authority: 31 U.S.C. 5111, 5112, 5132, & 9701)

Eric Anderson,

Executive Secretary, United States Mint.

[FR Doc. 2022-05181 Filed 3-10-22; 8:45 am]

BILLING CODE P

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0797]

Agency Information Collection Activity Under OMB Review: GI Bill® School Feedback Tool

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, this notice announces that the Veterans Benefits Administration (VBA), Department of Veterans Affairs, will submit the collection of information abstracted below to the Office of Management and Budget (OMB) for review and comment. The PRA submission describes the nature of the information collection and its expected cost and burden and it includes the actual data collection instrument.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Refer to “OMB Control No. 2900-0797.”

FOR FURTHER INFORMATION CONTACT:

Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 1717 H Street NW, Washington, DC 20006, (202) 266-4688 or email maribel.aponte@va.gov. Please refer to “OMB Control No. 2900-0797” in any correspondence.

SUPPLEMENTARY INFORMATION:

Authority: Executive Order 13607.

Title: Principles of Excellence Complaint Feedback Tool.

OMB Control Number: 2900-0797.

Type of Review: Revision of a currently approved collection.

Abstract: The respondent submits a complaint about an educational institution online through either the GI Bill website or the eBenefit portal. The information gathered can only be obtained from the individual respondents. Valid complaints will be accepted from third parties. The Feedback Tool process for VA’s complaint system data elements include:

- *Institution/Employer:* There are over 36,000 educational institutions that are approved for VA education benefits.

- *Anonymous Complaints:* The Feedback Tool Complaint System allows for a user to file anonymous complaints. Based on working group discussions with CFPB and FTC, VA believes that allowing anonymous complaints will garner more ground truth on what is happening with Veterans using their education benefits at different schools.

- *Required fields:* As a result of allowing anonymous complaints, many of the fields will not be required by VA.

An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The **Federal Register** Notice with a 60-day comment period soliciting comments on this collection of information was published at 86 FR 241 on December 20, 2021, pages 72027-72028.

Affected Public: Individuals or Households.

Estimated Annual Burden: 300 hours.

Estimated Average Burden per Respondent: 30 and 60 minutes respectively based on level of complexity.

Frequency of Response: Occasionally.

Estimated Number of Respondents: 1,202.

By direction of the Secretary.

Maribel Aponte,

VA PRA Clearance Officer, Office of Enterprise and Integration, Data Governance Analytics, Department of Veterans Affairs.

BILLING CODE 8320-01-P

DEPARTMENT OF VETERANS AFFAIRS

[OMB Control No. 2900-0406]

Agency Information Collection**Activity: Verification of VA Benefits**

AGENCY: Veterans Benefits Administration, Department of Veterans Affairs.

ACTION: Notice.

SUMMARY: Veterans Benefits Administration, Department of Veterans Affairs (VA), is announcing an opportunity for public comment on the proposed collection of certain information by the agency. Under the Paperwork Reduction Act (PRA) of 1995, Federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension of a currently approved collection, and allow 60 days for public comment in response to the notice.

DATES: Written comments and recommendations on the proposed collection of information should be received on or before May 10, 2022.

ADDRESSES: Submit written comments on the collection of information through Federal Docket Management System (FDMS) at www.Regulations.gov or to Nancy J. Kessinger, Veterans Benefits Administration (20M33), Department of Veterans Affairs, 810 Vermont Avenue NW, Washington, DC 20420 or email to nancy.kessinger@va.gov. Please refer to “OMB Control No. 2900-0406” in any correspondence. During the comment period, comments may be viewed online through FDMS.

FOR FURTHER INFORMATION CONTACT:

Maribel Aponte, Office of Enterprise and Integration, Data Governance Analytics (008), 1717 H Street NW, Washington, DC 20006, (202) 266-4688 or email maribel.aponte@va.gov. Please refer to “OMB Control No. 2900-0406” in any correspondence.

SUPPLEMENTARY INFORMATION: Under the PRA of 1995, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. This request for comment is being made pursuant to Section 3506(c)(2)(A) of the PRA.

With respect to the following collection of information, VBA invites comments on: (1) Whether the proposed collection of information is necessary for the proper performance of VBA’s functions, including whether the information will have practical utility; (2) the accuracy of VBA’s estimate of the burden of the proposed collection of
