Security Zone; Protection of Military Cargo, Captain of the Port Zone, Puget Sound, WA

AGENCY: Coast Guard, DHS.

ACTION: Final rule; correction.

SUMMARY: The Coast Guard Captain of the Port Puget Sound published in the **Federal Register** of December 10, 2004, a final rule concerning security zones for the protection of military cargo loading and unloading operations in the navigable waters of Puget Sound. Wording in § 165.1321(c)(3) is being corrected to fix a typographical error in the longitude of the first point listed in the security zone. This document makes this correction.

DATES: This rule is effective January 12, 2005.

FOR FURTHER INFORMATION CONTACT:

LTJG T. Thayer, c/o Captain of the Port, Puget Sound, 1519 Alaskan Way South, Seattle, WA 98134, (206) 217–6232.

SUPPLEMENTARY INFORMATION: The Coast Guard published a document in the **Federal Register** on December 10, 2004 (69 FR 71709), which amended 33 CFR 165.1321 by adding Budd Inlet, Olympia, WA as a permanent security zone. In this document, paragraph (c)(3) of the regulatory text contained a typographical error in the longitude of the first point listed in the security zone. The existing, accompanying description of this point as “approximately the northwestern end of the fence line enclosing Berth 1 at Port of Olympia” is correct. This correction merely amends the erroneous longitude coordinate in the regulatory text.

■ In rule FR Doc. 04–27213 published on December 10, 2004 (69 FR 71709), make the following correction.

§ 165.1317 [Amended]

■ On page 71711, starting on the fifth line in paragraph (c)(3), remove the phrase “47°03’12” N, 122°25’21” W” and add, in its place, the phrase “47°03’12” N, 122°54’21” W”.

Dated: December 29, 2004.

Security Zone; San Diego Bay, CA

AGENCY: Coast Guard, DHS.

ACTION: Final rule.

SUMMARY: The Coast Guard is expanding the geographical boundaries of the permanent security zone at Naval Base San Diego. This action is required to provide adequate area for the U.S. Navy to install an upgraded barrier system and provide the minimum required separation distances between the barrier and protected assets at Naval Station San Diego. The revised security zone will run adjacent to the navigation channel between Piers 14 and Pier 5. From the edge of the navigation channel west of Pier 5, the proposed security zone extends to a point 400 feet opposite of Pier 1. The existing security zone at Naval Station San Diego, implemented on April 15, 2003, does not provide adequate separation distance between protected vessels and the proposed barrier system.

DATES: This rule is effective February 11, 2005.

ADDRESSES: Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, are part of docket SD 04–019 and are available for inspection or copying between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:**Regulatory Information**

On September 13, 2004, we published a notice of proposed rulemaking (NPRM) entitled “Security Zone; San Diego Bay” in the **Federal Register** (69 FR 55122). We received two letters and one e-mail commenting on the proposed rule. No public meeting was requested, and none was held. However, the proposal was raised as a point of discussion during a previously scheduled San Diego Harbor Safety Committee meeting in October 2004. The U.S. Navy and U.S. Coast Guard participated in several meetings with the San Diego Bay Pilots Association to discuss the impact of this revised security zone and the installment of a permanent barrier system.
