DEPARTMENT OF LABOR**Employment and Training Administration****Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974, as amended, (19 U.S.C. 2273), the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) number and alternative trade adjustment assistance (ATAA) by (TA-W) number issued during the periods of January and February 2004.

In order for an affirmative determination to be made and a certification of eligibility to apply for directly-impacted (primary) worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. the sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. a significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. there has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. the country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. the country to which the workers' firm has shifted production of the articles to a beneficiary country under the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. there has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance as an adversely affected secondary group to be issued, each of the group eligibility requirements of section 222(b) of the Act must be met.

(1) significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) the workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and

such supply or production is related to the article that was the basis for such certification; and

(3) either—

(A) the workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) a loss or business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

Negative Determinations for Worker Adjustment Assistance

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

The investigation revealed that criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.B) (No shift in production to a foreign country) have not been met.

Symtech, Inc., Spartanburg, SC; Notice of Negative Determination on Reconsideration

On January 28, 2004, the Department issued an Affirmative Determination Regarding Application for Reconsideration for the workers and former workers of the subject firm. The notice of determination was published in the **Federal Register** on February 11, 2004 (69 FR 6698).

The Department initially denied Trade Adjustment Assistance (TAA) to workers of Symtech, Inc., Spartanburg, South Carolina because the workers did not produce an article within the meaning of section 222 of the Trade Act and are not service workers whose separations were caused importantly by a reduced demand for their services from a parent firm, a firm otherwise related to their firm by ownership, or a firm related by control.

In the request for reconsideration, the petitioner alleged that production did occur at the subject company and therefore, the service worker designation was erroneous.

The reconsideration investigation revealed that although machine assembly was done at the subject company, it was a negligible amount of total company sales during the relevant time period. The main functions of the company were the sale, distribution, and servicing of machines.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 27th day of February, 2004.

Elliott S. Kushner,

Certifying Officer, Division of Trade Adjustment Assistance.

Wolverine Pattern and Machine, Inc., Saginaw, MI; Notice of Negative Determination Regarding Application for Reconsideration

By application of January 5, 2004, the International Association of Machinists and Aerospace Workers Local Patternmakers 2839 requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on December 9, 2003, and published in the **Federal Register** on January 16, 2004 (69 FR 2622).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) if in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The petition for the workers of Wolverine Pattern and Machine, Inc., Saginaw, Michigan was denied because the "contributed importantly" group eligibility requirement of Section 222 of the Trade Act of 1974, as amended, was not met. The "contributed importantly" test is generally demonstrated through a survey of customers of the workers' firm and/or through a survey of firms to which the subject firm submitted bids. In this case, the bid survey revealed that none of the respondent customer firms awarded their bids for industrial molds and tooling to foreign competitors. The subject firm did not import industrial molds and tooling in the relevant period nor did it shift production to a foreign country.

The petitioner refers to the subject firm's competitor, National Pattern, Inc.,
