

traffic noise abatement measures, the development and operation of a second air cargo hub, and other aviation-related industrial development assessed in the earlier DEIS. No further development of the Southwest Quadrant would be needed to support the development project proposed in this EA. Likewise the proposed Perishables Preparation Center and Dry Freight Sort Facility would not prevent any other future airport development at this site.

Additionally for purposes of disclosure it should also be noted that the air traffic noise abatement measures may also be considered for implementation at a future date. However, they are not assessed in the EA and are not considered for approval in the FONSI/ROD. Prior to their being considered for approval, they would be subject to environmental reevaluation. The reevaluation would include a discussion of the cumulative impacts of the projects assessed in this EA.

The EA includes an assessment of cumulative noise impacts for these projects. The noise impacts from this EA and air traffic noise abatement measures assessed in the 1999 Draft EIS were used to determine if significant increases in noise were likely to occur with the implementation of both projects. It was determined that there would be no significant cumulative noise impacts with the implementation of these projects. This finding is based on the determination that the incremental growth in cargo operations forecast in the 1999 EIS noise analysis sufficiently encompassed the addition of 18 operations per week proposed by the Project in this EA. This is further bolstered by the fact that existing cargo operations are not meeting forecast levels (down 22 percent in 2001 from 2000 levels). The EA also disclosed the cumulative impacts for the other NEPA categories.

Based on the analysis presented in the Environmental Assessment, it is determined that there is no practicable alternative to the proposed construction in wetlands and that the proposed action included all practicable measures to minimize harm to wetland which may result from such uses. TLCPA has developed and will implement a wetland mitigation plan that was found to be acceptable to the State of Ohio and the United States Army Corps of Engineers.

The Draft Environmental Assessment was distributed and the FAA was involved with agency consultation and coordination at the federal and state levels. Additionally, on March 28, 2000, the State of Ohio, Environmental Protection Agency held a public hearing

for the issuance of a 401 wetland permit that was need for construction of the project. On August 28, 2000 the OEPA issued the Section 401 Water Quality Certification, conditional upon approval of the wetlands mitigation plan. The U.S. Army Corps of Engineers issued a validated Section 404 permit on September 11, 2000. The required mitigation plan has been approved.

The Section 404 validated permit stipulates that wetland mitigation must include on-site creation of appropriate wetland habitat to support state threatened and endangered plant species that would be lost through the construction of the Proposed Project. The on-site mitigation must include a wild lupine (*Lupinus perenniae*) that is part of the life cycle for the Karner blue butterfly (*Lycacides melissa*). No other Federally listed species would be impacted by the Proposed Project.

The TLCPA will be required to implement the mitigation measures identified in the Draft FONSI/ROD as a condition of environmental approval for the proposed development/action items listed above to support existing and proposed aeronautical activities at the airport.

The purpose of this notice is to provide the public an opportunity to submit information to the FAA prior to its reaching a decision on this matter.

In accordance with 40 CFR 1501.4(c) of the Council on Environmental Quality, there will be a thirty (30) day comment period before the FAA makes its final determination on the FONSI/ROD. Interested individuals, government agencies, and private organizations are invited to send comments on the Draft FONSI/ROD to the address set forth above. Absent receipt of additional substantive information on environmental impacts the FAA anticipates that it will sign the Draft FONSI/ROD thirty days after this notice appears in the **Federal Register**.

The Final EA and supporting documents and the Draft FONSI/ROD may be viewed during normal business hours at the following locations:

Airport Manager's Office, Toledo Express Airport, 11013 Airport Highway Swanton, Ohio 43558.

Toledo-Lucas County Public Library, 1032 South McCord Road Holland, Ohio 43528.

Swanton Public Library, 305 Chestnut Street, Swanton, Ohio 43558.

Federal Aviation Administration, Detroit Airports, District Office, Willow Run Airport, east, 8820 Beck Road, Belleville, Michigan 48111.

Questions may be directed to the individual named above under the

heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Des Plaines, Illinois, on June 26, 2001.

Barry D. Cooper,

Acting Manager, Airports Division, FAA, Great Lakes Region.

Federal Aviation Administration

Notice; Correction

ACTION: Notice; correction.

SUMMARY: The Federal Aviation Administration (FAA) published a Notice of Intent to prepare an Environmental Impact Statement for proposed master plan development at San Diego International Airport—Lindbergh Field in the **Federal Register** on Thursday, June 21, 2001. The published Notice of Intent omitted two work items that should have been identified under Alternative One.

FOR FURTHER INFORMATION CONTACT: David B. Kessler, AICP, Environmental Protection Specialist, AWP-611.2, Planning Section, Airports Division, Federal Aviation Administration, Western-Pacific Region, PO Box 92007, Los Angeles, California 90009-2007, Telephone: 310/725-3615.

Correction

In the **Federal Register** issue of Thursday, June 21, 2001, Volume 66, page 33294-33295, make the following specific corrections which are underlined to facilitate the changes: In the second paragraph under the heading **SUPPLEMENTARY INFORMATION** replace the second sentence with the following: "FAA anticipates that the Port of San Diego will publish their Draft EIR during the summer *or fall* of 2001." Under the heading "Alternative One—Construct New North Terminal and Cargo Area," replace the first work item with "Construct new 10-14. Gate North Terminal (approximately 255,000-303,000 square feet)." At the end of the listing of work items for Alternative One, add the following work item: "*Construct area for aircraft remaining overnight.*"

These changes in the Notice of Intent do not require any changes to the dates and times of the public and governmental agency scoping meetings as published in the **Federal Register** on June 21, 2001.

Issued in Hawthorne, California on Thursday, June 21, 2001.

Herman C. Bliss,

Manager, Airports Division, Western-Pacific Region, AWP-600.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Executive Committee of the Aviation Rulemaking Advisory Committee; Meeting

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of meeting.

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of the Executive Committee of the Federal Aviation Administration Aviation Rulemaking Advisory Committee.

DATES: The meeting will be held August 8, 2001, at 10 a.m.

ADDRESSES: The meeting will be held at the Federal Aviation Administration, 800 Independence Ave., SW., Room 1014, Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Gerri Robinson, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, DC 20591, telephone (202) 267-9678; fax (202) 267-5075; e-mail Gerri.Robinson@faa.gov.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92-463; 5 U.S.C. App. II), notice is hereby given of a meeting of the Executive Committee to be held on August 8, 2001, at the Federal Aviation Administration, 800 Independence Ave., SW., Room 1014, Washington, DC 20591. The agenda will include:

- Fuel Tank Inerting Working Group report
- Nominations for Vice Chair
- Status reports from Assistant Chairs

The Fuel Tank Inerting Working Group plans to request ARAC approval of its report on recommended regulatory text for new rulemaking and the data needed to evaluate the options for implementing new regulations that would require eliminating or significantly reducing the development of flammable vapors in fuel tanks on in-service, new production, and new type design transport category airplanes.

Attendance is open to the interested public but will be limited to the space available. The FAA will arrange teleconference capability for individuals

wishing to participate by teleconference if we receive that notification by July 27, 2001. Arrangements to participate by teleconference can be made by contacting the person listed in the **FOR FURTHER INFORMATION CONTACT** section. Callers outside the Washington metropolitan area will be responsible for paying long distance charges.

The public must make arrangements by July 27 to present oral statements at the meeting. The public may present written statements to the executive committee at any time by providing 25 copies to the Executive Director, or by bringing the copies to the meeting.

If you are in need of assistance or require a reasonable accommodation for this meeting, please contact the person listed under the heading **FOR FURTHER INFORMATION CONTACT**.

Issued in Washington, DC, on June 21, 2001.

Anthony F. Fazio,

Executive Director, Aviation Rulemaking Advisory Committee.

Federal Aviation Administration

Notice of Intent To Rule on Application To Impose and Use the Revenue From a Passenger Facility Charge (PFC) at Dane County Regional Airport, Madison, WI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of intent to rule on application.

SUMMARY: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Dane County Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101-508) and Part 158 of the Federal Aviation Regulations (14 CFR Part 158).

DATES: Comments must be received on or before August 1, 2001.

ADDRESSES: Comments on this application may be mailed or delivered in triplicate to the FAA at the following address: Minneapolis Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, Minnesota 55450. In addition, one copy of any comments submitted to the FAA must be mailed or delivered to Peter L. Drahm, Airport Director of Dane County Regional Airport, Madison, Wisconsin at the

following address: 4000 International Lane, Madison, Wisconsin 53704-3120.

Air carriers and foreign air carriers may submit copies of written comments previously provided to the County of Dane under section 158.23 of Part 158.

FOR FURTHER INFORMATION CONTACT:

Sandra E. DePottay, Program Manager, Airports District Office, 6020 28th Avenue South, Room 102, Minneapolis, Minnesota 55450, 612-713-4363. The application may be reviewed in person at this same location.

SUPPLEMENTARY INFORMATION: The FAA proposes to rule and invites public comment on the application to impose and use the revenue from a PFC at Dane County Regional Airport under the provisions of the Aviation Safety and Capacity Expansion Act of 1990 (Title IX of the Omnibus Budget Reconciliation Act of 1990) (Public Law 101-508) and part 158 of the Federal Aviation Regulations (14 CFR part 158).

On May 31, 2001 the FAA determined that the application to impose and use the revenue from a PFC submitted by the County of Dane was substantially complete within the requirements of section 158.25 of Part 158. The FAA will approve or disapprove the application, in whole or in part, no later than September 4, 2001.

The following is a brief overview of the application.

PFC application number: 01-05-C-00-MSN.

Level of the proposed PFC: \$4.50.

Proposed charge effective date: December 1, 2006.

Proposed charge expiration date: March 1, 2014.

Total estimated PFC revenue: \$46,656,115.00.

Brief description of proposed projects: Realignment of taxiway "E" at east ramp, terminal apron expansion, terminal building expansion, airfield storm water study and improvements.

Class or classes of air carriers which the public agency has requested not be required to collect PFCs: Air taxi/commercial operators filing FAA form 1800-31. Any person may inspect the application in person at the FAA office listed above under **FOR FURTHER INFORMATION CONTACT**. In addition, any person may, upon request, inspect the application, notice and other documents germane to the application in person at Dane County Regional Airport.
