Proposed Directive for National Saw Program Policy

AGENCY: Forest Service, USDA.

ACTION: Notice of proposed directive; request for public comment.

SUMMARY: The Forest Service proposes to revise Forest Service Manual (FSM) 2350 to establish guidance for the National Saw Program and associated monitoring protocols and require their use on National Forest System (NFS) lands. The proposed revisions establish national training, evaluation, and certification requirements for the use of chain saws and crosscut saws by employees, volunteers, training consultants, and cooperators on NFS lands. The National Saw Program, which includes these directives, training, and other associated materials, would provide a consistent framework for conducting saw activities on NFS lands. Public comment is invited and will be considered in the development of the final directive. The proposed directive can be viewed in its entirety at www.fs.fed.us/sites/default/files/2358-Saw-Policy-TAI-6-11-15_0.pdf.

DATES: Comments must be received, in writing, on or before August 17, 2015.

ADDRESSES: Submit comments electronically by following the instructions at the Federal eRulemaking portal at <http://www.regulations.gov> or submit comments via facsimile to 703-605-5131. Please identify facsimiled comments by including "Saw Program Directive" on the cover sheet or first page. Comments may also be submitted via mail to National Saw Policy Program Comments, USDA Forest Service, Attn: Jonathan Stephens, Recreation, Heritage and Volunteer Resources, 201 14th Street SW., Washington, DC 20250. If comments are submitted electronically, duplicate comments should not be sent by mail. Please confine comments to issues pertinent to the proposed directive, explain the reasons for any recommended changes, and, where

possible, reference the specific section and wording being addressed.

All comments, including names and addresses when provided, will be placed in the record and will be made available for public inspection and copying. The public may inspect the comments received on the proposed directive at the USDA Forest Service Headquarters, located in the Yates Federal Building at 201 14th Street SW., Washington, DC, on regular business days between 8:30 a.m. and 4:30 p.m. Visitors are encouraged to call ahead at 202-205-1701 to facilitate entry into the building.

FOR FURTHER INFORMATION CONTACT:

Jonathan Stephens, National Trails Program Manager, 202-205-1701 or jstephens02@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service at 800-877-8339 between 8:00 a.m. and 8:00 p.m., Monday through Friday.

SUPPLEMENTARY INFORMATION: The development of a national saw policy will allow the Forest Service to facilitate the safe use of chain saws and crosscut saws while optimizing the critical skills and cooperative opportunities for trail maintenance and other projects on NFS lands. The proposed FSM 2358 provides direction on sawyer qualifications, training, evaluation, and certification requirements for Forest Service employees, volunteers, training consultants, and cooperators using either chain saws or crosscut saws on NFS lands. This proposed directive would supersede all existing Forest Service regional supplements to Forest Service Handbook (FSH) 6709.11, section 22.48. Sawyers who are certified when the proposed directive becomes effective would not be subject to the certification requirements in the proposed directive until their certification expires.

Overview of the Proposed Directive

The following provides an overview of the proposed directive for the Forest Service's National Saw Program.

Training and Certification. Under the proposed directive, the Forest Service would allow the use of saws on NFS lands only if the sawyer has successfully completed sawyer training and field evaluation, possesses a valid National Sawyer Certification Card, and meets any other specified qualifications to perform assigned saw work safely, including current training on first aid and cardiopulmonary resuscitation (CPR). Sawyers would receive certification upon successful completion of required sawyer training and a field
