[A-570-908]

Second Administrative Review of Sodium Hexametaphosphate From the People's Republic of China: Extension of Preliminary Results

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: The Department of Commerce (the "Department") is extending the time limit for the preliminary results of the administrative review of sodium hexametaphosphate ("sodium hex") from the People's Republic of China ("PRC"). The review covers the period March 1, 2010, through February 28, 2011.

DATES: *Effective Date:* November 29, 2011.

FOR FURTHER INFORMATION CONTACT: Paul Walker, AD/CVD Operations, Office 9, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue NW., Washington, DC 20230, telephone (202) 482-0413.

Background

On April 27, 2011, the Department published in the **Federal Register** a notice of initiation of the administrative review of the antidumping duty order on sodium hex from the PRC.¹ The preliminary results of the review for sodium hex from the PRC are currently due no later than December 1, 2011.

Statutory Time Limits

In antidumping duty administrative reviews, section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the "Act"), requires the Department to make a preliminary determination within 245 days after the last day of the anniversary month of an order for which a review is requested and a final determination within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within these time periods, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary determination to a maximum of 365 days after the last day of the anniversary month.

Extension of Time Limit for Preliminary Results of Review

We determine that it is not practicable to complete the preliminary results of this administrative review within the original time limit because the Department requires additional time to analyze questionnaire responses, issue supplemental questionnaires, possibly conduct verification, and to evaluate surrogate value submissions.

Therefore, the Department is extending the time limit for completion of the preliminary results of the administrative review by 60 days. The preliminary results will now be due no
