[Project No. 14585–000]

Dynegy Estero Bay Wave Park, LLC; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On February 7, 2014, Dynegy Estero Bay Wave Park, LLC (Dynegy) filed an application for a preliminary permit, pursuant to section 4(f) of the Federal Power Act, proposing to study the feasibility of the proposed Estero Bay Wave Park Project (project). The proposed project would be developed in a phased approach. First, under a demonstration phase, Dynegy plans to deploy a single approximately 1-megawatt (MW) GWAVE Power Generating Vessel (wave energy converter or WEC). Second, under a potential commercial license, Dynegy plans to deploy 10 to 16 approximately 1–MW WEC's. Third, Dynegy plans to seek authorization to deploy additional WEC's with a total installed capacity of 650 MW. Two or more high voltage submarine cables would transmit power to shore, interconnecting with Pacific Gas and Electric's switchyard facilities at Morro Bay. The requested project boundary comprises approximately 2.73 square nautical miles (1.0-mile-wide by 2.73-miles-long) of coastal waters and lands located along the coast of San Luis Obispo County, California, near the town of Morro Bay.

The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application during the permit term. A preliminary permit does not authorize the permit holder to perform any land disturbing or construction activities or to otherwise enter upon lands or waters owned by others without the owners' express permission.

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OAR–2014–0229; FRL–9914–10–OAR]

Confidentiality of Business Information Submitted in Compliance Documents for 2014 and Subsequent Model Year Vehicles, Engines and Equipment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice; request for comment.

SUMMARY: The Environmental Protection Agency (EPA) is seeking comment on a draft Class Determination regarding the confidentiality of business information submitted in compliance documents for 2014 and subsequent model year vehicles, engines and equipment.

DATES: Comments must be submitted on or before September 5, 2014.

ADDRESSES: Submit your comments referencing Docket ID No. EPA–HQ–OAR–2014–0229 online using *www.regulations.gov* (our preferred method), by email to *pugliese.holly@epa.gov* or by mail to: EPA Docket Center, Environmental Protection Agency, Mailcode 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

FOR FURTHER INFORMATION CONTACT: Holly Pugliese, Compliance Division, Office of Transportation and Air Quality, Environmental Protection Agency, 2000 Traverwood, Ann Arbor, Michigan, 48105; telephone number: 734–214–4288; fax number: 734–214–4869; email address: *pugliese.holly@epa.gov.*

SUPPLEMENTARY INFORMATION: EPA's Office of General Counsel (OGC) issues class determinations to describe the categories of business information submitted to the Agency that can be considered confidential and when and if such information can be released to the public when disclosure is requested under the Freedom of Information Act (''FOIA'' or ''the Act''). On March 28, 2013, OGC issued ''Class Determination 1–13, Confidentiality of Business Information Submitted in Certification Applications for 2013 and Subsequent Model Year Vehicles, Engines and Equipment'' (*www.epa.gov/ogc/documents/1-13.pdf*). Class

Determination 1–13 addresses the information submitted to the Compliance Division (CD) in EPA's Office of Transportation and Air Quality (OTAQ) by vehicle, engine, and equipment manufacturers for the purpose of obtaining certificates of conformity which are required before a manufacturer can legally sell vehicles, engines, or equipment in the United States.

As a follow-up to that class determination, OGC will be issuing a new class determination that will address the confidentiality of business information submitted in compliance reports for 2014 and subsequent model year vehicles, engines and equipment. This class determination will apply prospectively for 2014 and subsequent model year vehicles, engines and equipment regulated by OTAQ and covers information that is submitted by manufacturers to satisfy post-certification compliance reporting requirements as required by applicable Clean Air Act regulatory requirements. A copy of the draft class determination can be found under Docket ID No. EPA–HQ–OAR–2014–0229 at *www.regulations.gov.*

For the class determination covering certification information, EPA solicited comment directly from manufacturers through trade associations. However, because this is the first class determination issued by EPA that addresses compliance documents and information, EPA believes that a more formal approach is appropriate. EPA will review all comments submitted to the docket and will issue the final class determination later this year.

Dated: July 15, 2014.

Byron J. Bunker,

Director, Compliance Division, Office of Transportation and Air Quality.

The Committee directs the Desk to maintain its policy of rolling over maturing Treasury securities into new issues and its policy of reinvesting principal payments on all agency debt
