

strategy for the ACS as described in the steps below. The testing has shown that the change increases response to the online questionnaire, and reduces the total number of mailings sent to households by eliminating one entire mailing and replacing a postcard with a letter.

For households eligible to receive survey materials by mail, the first contact includes a letter and instruction card explaining how to complete the survey online. Also included are a Frequently Asked Questions (FAQ) brochure and a brochure that provides basic information about the survey in English, Spanish, Russian, Chinese, Vietnamese, and Korean, and provides a phone number to call for assistance in each language. The instruction card provides the information on how to respond in English and Spanish. The letter explains that if the respondent is unable to complete the survey online, a paper questionnaire will be sent later. The Internet version of the questionnaire is available in English and Spanish and includes questions about the housing unit and the people living in the housing unit. The Internet questionnaire has space to collect detailed information for twenty people in the household.

The second mailing is a letter that reminds respondents to complete the survey online, thanks them if they have already done so, and informs them that a paper form will be sent later if we do not receive their response. This letter includes clear instructions to log in, including an explicit reference to the user identification number.

In a third mailing, the ACS housing unit questionnaire package is sent only to those sample addresses that have not completed the online questionnaire within two weeks. The content includes a follow up letter, a paper copy of the questionnaire, an instruction guide for completing the paper form, an instruction card for completing the survey online, a FAQ brochure, and a return envelope. The cover letter with this questionnaire package reminds the household of the importance of the ACS, and asks them to respond soon either by completing the survey online or by returning a completed paper questionnaire.

The fourth mailing is a postcard that reminds respondents that "now is the time to complete the survey," informs them that an interviewer may contact them if they do not complete the survey, and reminds them of the importance of the ACS.

A fifth mailing is sent to respondents who have not completed the survey within five weeks and are not eligible

for telephone follow-up because we do not have a telephone number for the household. This postcard reminds these respondents to return their questionnaires and thanks them if they have already done so.

Affected Public: Individuals or households.

Frequency: Response to the ACS is on a one-time basis.

Respondent's Obligation: Mandatory.

Legal Authority: Title 13, United States Code, Sections 141, 193, and 221.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to *OIRA_Submission@omb.eop.gov* or fax to (202)395-5806.

Foreign-Trade Zone 151—Findlay, Ohio; Application for Reorganization: (Expansion of Service Area) Under Alternative Site Framework

An application has been submitted to the Foreign-Trade Zones (FTZ) Board by the Findlay Hancock County Chamber of Commerce, grantee of Foreign-Trade Zone 151, requesting authority to reorganize the zone to expand its service area under the alternative site framework (ASF) adopted by the FTZ Board (15 CFR Sec. 400.2(c)). The ASF is an option for grantees for the establishment or reorganization of zones and can permit significantly greater flexibility in the designation of new subzones or "usage-driven" FTZ sites for operators/users located within a grantee's "service area" in the context of the FTZ Board's standard 2,000-acre activation limit for a zone. The application was submitted pursuant to the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the FTZ Board (15 CFR part 400). It was formally docketed on May 21, 2015.

FTZ 151 was approved by the Board on July 6, 1988 (Board Order 389, 53 FR 27058, 7/18/1988) and reorganized under the ASF on August 29, 2012 (Board Order 1855, 77 FR 55182-55183, 9/7/2012). The zone currently has a service area that includes Hardin, Putnam, Seneca, Allen and Hancock Counties, Ohio.

The applicant is now requesting authority to expand the service area of the zone to include Van Wert County, as described in the application. If approved, the grantee would be able to serve sites throughout the expanded service area based on companies' needs for FTZ designation. The proposed expanded service area is adjacent to the Toledo-Sandusky Customs and Border Protection Port of Entry

In accordance with the FTZ Board's regulations, Elizabeth Whiteman of the

FTZ Staff is designated examiner to evaluate and analyze the facts and information presented in the application and case record and to report findings and recommendations to the FTZ Board.
