

ACHS–II. Data collection will be managed by the University of Alabama at Birmingham (UAB) and the Calhoun County Health Department (CCHD).

A sample of 500 surviving ACHS cohort members with PCBs measurements will be enrolled in the ACHS–II. After informed consent, clinical assessments will be done. These will be for blood pressure, height, weight, hip, and body girth. A questionnaire will be answered by computer-assisted personal interviews (CAPIs). Questions will be asked for

health, demographic, diet, and lifestyle factors. The self-reported responses will be compared to laboratory analytes. For these, blood samples will be drawn and analyzed.

The ACHS–II will measure the same serum PCBs as in the first Anniston survey. In this way, changes in PCB levels can be studied. The ACHS–II will also include serum analytes for dioxins, furans, dioxin-like PCBs, and chlorinated pesticides. Additional analytes include blood measures of polybrominated biphenyls and heavy

metals. Clinical biomarkers will include measures for thyroid, diabetes, lipids, and immune function. This will give a more complete profile of human exposures and health in Anniston, AL.

The ATSDR is requesting a two-year approval for this information collection. The total annualized burden is 227 hours.

There are no costs to respondents other than their time. Each respondent will spend about 2 hours in the study.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hrs)
Adults who took part in first Anniston Community Health Survey.	Recruitment Telephone Script	333	1	2/60
	Survey for Refusals	160	1	1/60
	Update Contact Information Form	250	1	1/60
	Medications Form	250	1	3/60
	Blood Draw Form	250	1	2/60
	Questionnaire	250	1	45/60

Ron A. Otten,

Director, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Centers for Medicare & Medicaid Services, HHS.

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995, the Centers for Medicare & Medicaid Services (CMS) is publishing the following summary of proposed collections for public comment. Interested persons are invited to send comments regarding this burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

1. Type of Information Collection Request: Reinstatement with change of a previously approved collection; **Title of Information Collection:** Data Collection
