Authorities

We issue this notice under the authority of the Endangered Species Act, as amended (16 U.S.C. 1531 *et seq.*), and the Marine Mammal Protection Act, as amended (16 U.S.C. 1361 *et seq.*), and their implementing regulations.

Timothy MacDonald,

Government Information Specialist, Branch of Permits, Division of Management Authority.

BILLING CODE 4333–15–P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23LR000F60100; OMB Control Number 1028–0065/Renewal]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Production Estimate

AGENCY: Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the U.S. Geological Survey (USGS) is proposing to renew an Information Collection.

DATES: Interested persons are invited to submit comments on or before May 25, 2023.

ADDRESSES: Send your comments on this Information Collection Request (ICR) to the Office of Management and Budget's (OMB) Desk Officer for the Department of the Interior by email at OIRA_Submission@omb.eop.gov; or via facsimile to (202) 395–5806. Please provide a copy of your comments to U.S. Geological Survey, Information

Collections Officer, 12201 Sunrise Valley Drive, MS 159, Reston, VA 20192; or by email to gs-info_collections@usgs.gov. Please reference OMB Control Number 1028–0065 in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this ICR, contact Elizabeth S. Sangine by email at escottsangine@usgs.gov, or by telephone at 703–648–7720. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You may also view the ICR at <https://www.reginfo.gov/public/do/PRAMain>.

SUPPLEMENTARY INFORMATION: In accordance with the PRA, we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provides the requested data in the desired format.

A **Federal Register** notice with a 60-day public comment period soliciting comments on this collection of information was published on January 30, 2023, 88 FR 5905–5906. We did not receive any public comments in response to that notice.

We are again soliciting comments on the proposed ICR that is described below. We are especially interested in public comments addressing the following issues: (1) is the collection necessary to the proper functions of the

USGS minerals information mission; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how the USGS might enhance the quality, utility, and clarity of the information to be collected; and (5) how the USGS might minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: This collection is needed to provide data on mineral production for annual reports published by commodity for use by Government agencies, Congressional offices, educational institutions, research organizations, financial institutions, consulting firms, industry, academia, and the general public. These data and derived information will be published in the “Mineral Commodity Summaries,” the first preliminary publication to furnish estimates covering the previous year's nonfuel mineral industry.

Title of Collection: Production Estimate.

OMB Control Number: 1028–0065.

Form Numbers: USGS Forms 9–4042–A and 9–4124–A.

Type of Review: Extension of a currently approved collection.

Respondents/Affected Public: Business or Other For-Profit Institutions: U.S. nonfuel minerals consumers.

Total Estimated Number of Annual Respondents: 1,100.

Total Estimated Number of Annual Responses: 1,100.

Estimated Completion Time per Response: 15 minutes.

Total Estimated Number of Annual Burden Hours: 275.

Respondent's Obligation: Voluntary.
Frequency of Collection: Annually.

Total Estimated Annual Non-Hour Burden Cost: There are no "non-hour cost" burdens associated with this ICR.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authorities for this action are the PRA, the National Materials and Minerals Policy, Research and Development Act of 1980 (30 U.S.C. 1601 *et seq.*), the National Mining and Minerals Policy Act of 1970 (30 U.S.C. 21(a)), and the Strategic and Critical Materials Stock Piling Act (50 U.S.C. 98 *et seq.*).

Steven Fortier,

Director, National Minerals Information Center, U.S. Geological Survey.

BILLING CODE 4338-11-P

DEPARTMENT OF THE INTERIOR

Geological Survey

[GX23GB00UM20200; OMB Control Number 1028-0133]

Agency Information Collection Activities; Earth Mapping Resources Initiative (Earth MRI) Competitive Cooperative Agreement Program With State Geological Surveys

AGENCY: U.S. Geological Survey, Interior.

ACTION: Notice of information collection; request for comment.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Office of the Secretary will seek Office of Management and Budget (OMB) approval of an extension of a previously approved information collection.

DATES: Interested persons are invited to submit comments on or before June 26, 2023.

ADDRESSES: Written comments and recommendations for the proposed clearance of a new information collection should be sent to Departmental Information Collection Clearance Officer, U.S. Department of the Interior, 1849 C Street NW,

Washington, DC 20240; or by email to DOI-PRA@ios.doi.gov. Please reference OMB Control Number "1028-0133 EarthMRI" in the subject line of your comments.

FOR FURTHER INFORMATION CONTACT: To request additional information about this Information Collection Request (ICR), contact James Mosley by telephone at (703) 648-6312, or by email at jmosley@usgs.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: In accordance with the PRA (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), all information collections require approval. We may not conduct or sponsor, nor are you required to respond to, a collection of information unless it displays a currently valid OMB control number.

As part of our continuing effort to reduce paperwork and respondent burden, we invite the public and other Federal agencies to comment on new, proposed, revised, and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public's reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are especially interested in public comment addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) How the agency might minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of

public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. While you can ask us in your comment to withhold your PII from public review, we cannot guarantee that we will be able to do so.

Abstract: Public Law 117-58, Section 40201, "Earth Mapping Resources Initiative" contained in the Infrastructure Investment and Jobs Act [otherwise known as the Bipartisan Infrastructure Law (BIL)] authorizes and accelerates the mapping efforts of the Earth Mapping Resources Initiative (Earth MRI).

Earth MRI is a component of the U.S. Geological Survey (USGS) Mineral Resources Program and is a national effort to carry out the fundamental resources- and mapping mission of the USGS. The goal of Earth MRI is to modernize the surface- and subsurface geologic mapping of the United States, with a focus on identifying areas that may have the potential to contain mineral resources.

The BIL directed the USGS to accelerate efforts to carry out fundamental integrated topographic, geologic, geochemical, and geophysical mapping and provide interpretation of subsurface and above-ground (mine waste) critical-mineral resources data at a funding level of \$320,000,000 annually for five years (FY2022–FY2026). The USGS developed a new competitive cooperative agreement program with the State geological surveys to support mine-waste activities authorized and funded by the BIL. State geological surveys apply for funds through an annual competitive agreement process. Individual State projects last for up to two years.

BIL Section 40201 stipulates that the USGS may enter into cooperative agreements with State geological surveys to accelerate the efforts of Earth MRI. The BIL requires the USGS to collect information necessary to ensure that cooperative-agreement funds authorized by this legislation are used in accordance with the BIL and Federal assistance requirements under 2 CFR 200. Information collected by Earth MRI as part of the consolidated workplan is described below. The USGS seeks Office of Management and Budget approval to continue to collect this information to manage and monitor cooperative agreement awards to comply with the BIL.
