

III. Waiver of 60-Day Comment Period

We ordinarily permit a 60-day comment period on notices of proposed rulemaking in the **Federal Register**, as provided in section 1871(b)(1) of the Act. However, this period may be shortened, as provided under section 1871(b)(2)(C) of the Act, when the Secretary finds good cause that a 60-day comment period would be impracticable, unnecessary, or contrary to the public interest, and incorporates a statement of the finding and its reasons in the rule issued. Because the correction in this document does not make any changes to the substantive policies proposed in the CY 2016 ESRD PPS proposed rule, but merely corrects the reference to a column in the preamble of the proposed rule, this correcting document does not constitute agency rulemaking and therefore, the 60-day comment period does not apply.

In addition, we believe it is important for the public to have the corrected information as soon as possible and find no reason to delay dissemination of it.

For the reasons stated previously, we find it both unnecessary and contrary to the public interest to undertake further notice and comment procedures with respect to this correcting document.

IV. Correction of Errors

In FR Doc. 2015–16074 of July 1, 2015 (80 FR 37808), make the following corrections:

- 1. On page 37814, second column, second full paragraph, in line 16, the reference to “13A” is corrected to read “11A”.

Dated: August 27, 2015.

*Executive Secretary to the Department,

Magnuson-Stevens Act Provisions; Fisheries Off West Coast States; Pacific Coast Groundfish Fishery; Process for Divestiture of Excess Quota Shares in the Individual Fishing Quota Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule, request for comments.

SUMMARY: In January 2011, NMFS implemented the groundfish trawl rationalization program (a catch share program) for the Pacific coast groundfish limited entry trawl fishery. The program was implemented through Amendment 20 to the Pacific Coast Groundfish Fishery Management Plan and the corresponding implementing regulations. Amendment 20 established the trawl rationalization program, which includes an Individual Fishing Quota program for limited entry trawl participants. Under current regulations, quota share (QS) permit owners must divest quota share holdings that exceed accumulation limits by November 30, 2015. This proposed action would make minor procedural modifications to the program regulations to clarify how divestiture and revocation of excess quota share could occur in November, 2015, and establish procedures applicable in the future if divestiture becomes necessary.

DATES: Comments on this proposed rule must be received on or before October 2, 2015.
