Certain Hot-Rolled Carbon Steel Flat Products from Argentina, Kazakhstan, Romania, and South Africa: Revocation of Antidumping Duty and Countervailing Duty Orders

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

SUMMARY: As a result of the determinations by the International Trade Commission (ITC) that revocation of the antidumping (AD) orders on certain hot-rolled carbon steel flat products (HR steel) from Argentina, Kazakhstan, Romania, and South Africa and the countervailing duty (CVD) orders on HR steel from Argentina and South Africa would not be likely to lead to a continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time, the Department of Commerce (the Department) is publishing this notice of revocation of these AD and CVD orders pursuant to section 751(d)(2) of the Tariff Act of 1930, as amended (the Act).

EFFECTIVE DATES: September 11, 2006 (Argentina/CVD), September 19, 2006 (Argentina and South Africa/AD), November 21, 2006 (Kazakhstan/AD), November 29, 2006 (Romania/AD), and December 3, 2006 (South Africa/CVD).

FOR FURTHER INFORMATION CONTACT: Preeti Tolani (Argentina/AD and CVD) at (202) 482-0395, Martha Douthitt (Kazakhstan and South Africa/AD) at (202) 482-5050, Richard Rimlinger (Romania/AD) at (202) 482-4477, Elfi Blum (South Africa/CVD) at (202) 482-0197, AD/CVD Operations, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street & Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Background

The AD and CVD orders which cover HR steel from Argentina, Kazakhstan, Romania, and South Africa were published in the **Federal Register** in September, November and December 2001. See *Notice of Antidumping Duty*

Orders: Certain Hot-Rolled Carbon Steel Flat Products From Argentina and the Republic of South Africa, 66 FR 48242 (September 19, 2001); *Antidumping Duty Order: Certain Hot-Rolled Carbon Steel Flat Products From Kazakhstan*, 66 FR 58435 (November 21, 2001); and *Notice of Amended Final Antidumping Duty Determination and Antidumping Duty Order: Certain Hot-Rolled Carbon Steel Flat Products From Romania*, 66 FR 59566 (November 29, 2001); *Notice of Countervailing Duty Order: Certain Hot-Rolled Carbon Steel Flat Products from Argentina*, 66 FR 47173 (September 11, 2001); *Notice of Countervailing Duty Order: Certain Hot-Rolled Carbon Steel Flat Products From South Africa*, 66 FR 60201 (December 3, 2001).

On August 1, 2006, the Department initiated and the ITC instituted sunset reviews of the AD orders on HR steel from Argentina, Kazakhstan, Romania, and South Africa and CVD orders on HR steel from Argentina and South Africa pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). See *Initiation of Five-year ("Sunset") Reviews*, 71 FR 43443 (August 1, 2006); and *Hot-Rolled Carbon Steel Flat Products from Argentina, China, India, Indonesia, Kazakhstan, Netherlands, Romania, South Africa, Taiwan, Thailand, and Ukraine, Investigation Nos. 701-TA-404-408 and 731-TA-898-908 (Review)*, 71 FR 43521 (August 1, 2006).

As a result of its reviews, the Department found that revocation of the AD and CVD orders would likely lead to continuation or recurrence of dumping and countervailable subsidies, and notified the ITC of the magnitude of the margins and net countervailable subsidies likely to prevail were the orders to be revoked. See *Certain Hot-Rolled Carbon Steel Flat Products from Argentina, the People's Republic of China, India, Indonesia, Kazakhstan, Romania, South Africa, Taiwan, Thailand, and Ukraine; Final Results of Expedited Sunset Reviews of the Antidumping Duty Orders*, 71 FR 70506 (December 5, 2006); and *Hot-Rolled Carbon Steel Flat Products from Argentina, India, Indonesia, South Africa, and Thailand: Final Results of Expedited Five-Year (Sunset) Reviews of the Countervailing Duty Orders*, 71 FR 70960 (December 7, 2006).

On October 31, 2007, the ITC determined pursuant to section 751(c) of the Act, that revocation of the AD orders on HR steel from Argentina, Kazakhstan, Romania, and South Africa and CVD orders on HR steel from Argentina and South Africa would not be likely to lead to a continuation or recurrence of

material injury to an industry in the United States within a reasonably foreseeable time. See *Hot-Rolled Steel Products from Argentina, China, India, Indonesia, Kazakhstan, Romania, South Africa, Taiwan, Thailand, and Ukraine*, 72 FR 61676 (October 31, 2007) and USITC Publication 3956 (October 2007), entitled *Hot-Rolled Steel Products from Argentina, China, India, Indonesia, Kazakhstan, Romania, South Africa, Taiwan, Thailand, and Ukraine: Investigation Nos. 701-TA-404-408 and 731-TA-898-902 and 904-908 (Review)*.

Scope of the Orders

The merchandise subject to these orders is certain hot-rolled carbon steel flat products of a rectangular shape, of a width of 0.5 inch or greater, neither clad, plated, nor coated with metal and whether or not painted, varnished, or coated with plastics or other non-metallic substances, in coils (whether or not in successively superimposed layers), regardless of thickness, and in straight lengths, of a thickness of less than 4.75 mm and of a width measuring at least 10 times the thickness.

Universal mill plate (*i.e.*, flat-rolled products rolled on four faces or in a closed box pass, of a width exceeding 150 mm, but not exceeding 1250 mm, and of a thickness of not less than 4 mm, not in coils and without patterns in relief) of a thickness not less than 4.0 mm is not included within the scope of these orders.

Specifically included within the scope of these orders are vacuum degassed, fully stabilized (commonly referred to as interstitial-free (IF)) steels, high strength low alloy (HSLA) steels, and the substrate for motor lamination steels. IF steels are recognized as low carbon steels with micro-alloying levels of elements such as titanium or niobium (also commonly referred to as columbium), or both, added to stabilize carbon and nitrogen elements. HSLA steels are recognized as steels with micro-alloying levels of elements such as chromium, copper, niobium, vanadium, and molybdenum. The substrate for motor lamination steels contains micro-alloying levels of elements such as silicon and aluminum.

Steel products included in the scope of these orders, regardless of definitions in the Harmonized Tariff Schedule of the United States (HTSUS), are products in which: (i) iron predominates, by weight, over each of the other contained elements; (ii) the carbon content is 2 percent or less, by weight; and (iii) none of the elements listed below exceeds the quantity, by weight, respectively indicated:

1.80 percent of manganese, or
