DOE-LM has acknowledged that segments of four National Historic Trails are present within the project area. The transfer of administrative jurisdiction would not invalidate or revoke the congressionally designated alignments of the National Historic Trail across the property, and trail wide administration would continue to be coordinated by the National Park Service.

(Authority: 42 U.S.C. 7916).

Andrew Archuleta,
BLM Wyoming State Director.

Description

Human remains representing, at minimum, two individuals were removed from Suffolk County, NY. They were excavated at an unknown date by F. (Frank) M. Smith, head of the Pacific Coast Borax Company. Originally from Wisconsin, his Borax mining operations were based in Death Valley. He resided in Oakland, but he had a summer residence on Shelter Island in Suffolk County, NY. The individuals and associated funerary items were donated and accessioned to the University in 1910. The one associated funerary object is a lot of faunal bones.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: archeological, geographical, historical, kinship, oral traditional, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the University of California, Berkeley has determined that:

- The human remains described in this notice represent the physical remains of at least two individuals of Native American ancestry.
- The one object described in this notice is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.

- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary object described in this notice and the Shinnecock Indian Nation.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after December 23, 2022. If competing requests for repatriation are received, the University of California, Berkeley must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The University of California, Berkeley is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.
