Synopsis

On February 28, 2008, the Commission released the *2008 Hearing Aid Compatibility First Report and Order*, which modified the Commission's hearing aid compatibility requirements applicable to providers of public mobile services and manufacturers of digital wireless handsets used in the delivery of those services. These modifications include requiring manufacturers and service providers to provide hearing aid compatibility contact information directly to the Commission for posting on the Commission's Web site. Specifically, the Commission amended 47 CFR 68.418 to require that manufacturers and service providers designate and identify one or more agents upon whom service may be made of all informal complaints, as well as notices, inquiries, orders, decisions, and other pronouncements of the Commission in any matter before the Commission. The regulations further provide that "[s]uch designation shall be provided to the Commission and shall include a name or department designation, business address, telephone number, and, if available, TTY number, facsimile number, and Internet e-mail address." Finally, the regulations require the Commission to make this information available to the public.

Apart from requiring the provision of contact information directly to the Commission, the new regulations do not otherwise change the procedures for handling complaints alleging a violation

of the Commission's hearing aid compatibility rules.
