

information to the Commission. If the Commission requests respondents to submit information which respondents believe is confidential, respondents may request confidential treatment of such information pursuant to 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission established a safety valve to ensure that carriers experiencing rapid growth in a given market will be able to meet customer demand. States may use this safety valve to grant requests from carriers that demonstrate the following:

(1) The carrier will exhaust its numbering resources in a market or rate area within three months (in lieu of six months-to-exhaust requirement); and

(2) Projected growth is based on the carrier's actual growth in the market or rate area, or in the carrier's actual growth in a reasonably comparable market, but only if that projected growth varies no more than 15 percent from historical growth in the relevant market.

The Commission lifted the ban on service-specific and technology-specific overlays (collectively, specialized overlays or SOs), allowing State commissions seeking to implement SOs to request delegated authority to do so on a case-by-case basis. To provide further guidance to State commissions, the Commission set forth the criteria that each request for delegated authority to implement a SO should address. This will enable us to examine the feasibility of SOs in a particular area, and determine whether the Commission's stated goals are likely to be met if the SO is implemented. Specifically, State commissions should also specifically address the following:

(1) The technologies or services to be included in the SO;

(2) The geographic area to be covered;

(3) Whether the SO will be transitional;

(4) When the SO will be implemented and, if a transitional SO is proposed, when the SO will become an all-services overlay;

(5) Whether the SO will include take-backs;

(6) Whether there will be 10-digit dialing in the SO and the underlying area code(s);

(7) Whether the SO and underlying area code(s) will be subject to rationing; and

(8) Whether the SO will cover an area in which pooling is taking place.

The Commission uses the information it collects to assist the State commissions in carrying out their delegated authority over numbering resources.

The Commission is reporting an adjustment which increases the burden estimates to this information collection. The adjustment increases the number of respondents from 200 to 400 (increase of 200), and the annual hours are increased from 1,120 to 2,240 hours (increase of 1,120). Mandatory electronic filing of applications for Experimental Radio licenses, including FCC Form 442 commenced on January 1, 2004.

Applicants that required an FCC licenses to operate a new or modified experimental radio station must file FCC Form 442, as required by 47 CFR 5.55 (a) through (c) and 47 CFR 5.59 of the Commission's rules. The FCC's information technician and engineers use the data supplied by applicants in FCC Form 442 to determine: (1) If the applicant is eligible for an experimental license; (2) the purpose of the experiment; (3) compliance with the requirements of part 5 of the Commission's rules; and (4) if the proposed operation will cause interference to existing operations.

Title: Section 64.604(c)(9), Emergency Interim Rule for Registration and Documentation of Disability for Eligibility to Use IP Captioned Telephone Service, CG Docket Nos. 13–24 and 03–123.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities; Individuals or households.

Number of Respondents and Responses: 12,004 respondents; 24,000 responses.

Estimated Time per Response: 30 minutes (.50 hours) to 1 hour.

Frequency of Response: On-going reporting requirement; One-time reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. The statutory authority for this information collection is Sec. 225 [47 U.S.C. 225] Telecommunications Services for Hearing-Impaired and Speech-Impaired Individuals; The Americans with Disabilities Act of 1990 (ADA), Public Law 101–336, 104 Stat. 327, 366–69, enacted on July 26, 1990.

Total Annual Burden: 18,000 hours.

Total Annual Cost: \$600,000.

Nature and Extent of Confidentiality: An assurance of confidentiality is not offered because this information collection does not involve the collection of personally identifiable information by the government from individuals.

Privacy Impact Assessment: No impacts(s).

Needs and Uses: The Commission seeks to extend OMB approval of OMB Control Number 3060-1182 for a period of three years. The interim rules containing these collections, which were adopted in the *IP CTS Interim Order*, published at 78 FR 8032, February 5, 2013, will remain in effect until the corresponding final rules, adopted by the Commission in the *IP CTS Reform Order*, published at 78 FR 53684, August 30, 2013, take effect. On December 6, 2013, the United States Court of Appeals for the District of Columbia Circuit granted in part a motion by Sorenson Communications, Inc. (Sorenson) seeking a stay of certain of the final rules. See *Sorenson Communications, Inc. and CaptionCall, LLC v. FCC*, D.C. Cir., No. 13–1246, December 6, 2013, at 1–2 (*Stay Order*). Specifically, the Court stayed “the rule adopted by the Commission prohibiting compensation to providers for minutes of use generated by equipment consumers received from providers for free or for less than \$75.” For the purpose of maintaining the *status quo* until the court issues a final ruling in court proceedings No. 13–1246 and consolidated No. 13–1122, the Commission therefore seeks to extend OMB approval of OMB Control Number 3060-1182 for a period of three years.
