

existing operation of its Pilot until July 31, 2006.

The Commission notes that proper surveillance is an essential component of any telephone access policy to an exchange trading floor. Surveillance procedures should help to ensure that Floor brokers and RCMMs use portable phones as authorized by NYSE Rule 36²⁶ and that orders are being handled in compliance with NYSE rules. The Commission expects the Exchange to actively review these procedures and address any potential concerns that have arisen during the Pilot. In this regard, the Commission notes that the Exchange should address whether telephone records are adequate for surveillance purposes.

The Commission also requests that the Exchange report any problems, surveillance, or enforcement matters associated with the Floor brokers' and RCMMs' use of an Exchange authorized and provided portable telephone on the Exchange Floor. As stated in the Original Order, the NYSE should also address whether additional surveillance would be needed because of the derivative nature of the ETFs. Furthermore, in any future additional filings on the Pilot, the Commission would expect that the NYSE submit information documenting the usage of the phones, any problems that have occurred, including, among other things, any regulatory actions or concerns, and any advantages or disadvantages that have resulted.²⁷

Average Burden Per Response: 15 minutes.

Form SSA-3830 is designed to assist hospitals and claimants who file on behalf of low birth weight infants in providing local field offices (FOs) and Disability Determination Services (DDSs) with medical information for determining disability of low birth weight infants. DDSs use the medical information to formally determine disability and to establish the most appropriate continuing disability review diaries. The respondents are hospitals that have information identifying low birth weight babies and medical conditions those babies may have. We estimate it will take 10 to 15 minutes to complete the form. 9. National Employment Activity and Disability Survey—0960-0666.

Background: The Ticket to Work (TTW) program was established by the Ticket to Work and Work Incentives Improvement Act of 1999. The program will provide eligible Social Security Disability Insurance (SSDI) and SSI disability beneficiaries with a Ticket, which can be used to obtain vocational rehabilitation (VR) or employment services through participating providers, called Employment Networks (ENs). The goal of the TTW program is to assist participants in returning to work at a level above the Substantial Gainful Activity (SGA) level. The program is expected to increase beneficiary demand for employment-related services and activities. It is also expected to increase the number and diversity of providers in response to the less restrictive participation requirements and increased consumer demand for services.

The National Employment Activity and Disability Survey: The National Employment Activity and Disability Survey will collect data on the work-related activities of SSI and SSDI beneficiaries as the TTW program, and other initiatives designed to improve beneficiary employment outcomes, are implemented. The TTW Survey is specifically designed to be a significant resource for the formal evaluation of TTW, but SSA anticipates that the survey will provide useful information for a variety of evaluation and policy analysis purposes, especially related to current efforts that attempt to improve return to work. The survey questionnaire focuses on information about beneficiaries and their work-related activities that cannot be obtained from SSA's administrative records. The survey will provide information about: (1) Beneficiaries who assign their Tickets to ENs, and their experience in the program; (2) beneficiaries who do not assign their Tickets, and the reasons why they do not, including involuntary non-participants; (3) the employment outcomes of Ticket users and other beneficiaries; and (4) the use of employment services by Ticket users and other beneficiaries. The respondents will be selected from SSI and SSDI disabled beneficiaries who meet the Ticket to Work program eligibility requirements.

Type of Request: Extension of an OMB-approved information collection.
