

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. eastern time on the specified comment date. It is not necessary to separately intervene again in a subDocket related to a compliance filing if you have previously intervened in the same Docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St. NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed Docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Magalie R. Salas,
Secretary.

[Project No. 12462-000-Massachusetts]

Indian River Power Supply, LLC; Notice of Availability of Environmental Assessment

December 2, 2005.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for exemption from licensing for the Indian River Project, to be located on the Westfield River, in the Town of Russell, Hampden County, Massachusetts, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyze the potential environmental impacts of the project and conclude that exempting the project from licensing, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1-866-208-3676, or for TTY, (202) 502-8659.

Any comments should be filed within 30 days from the issuance date of this notice, and should be addressed to the Secretary, Federal Energy Regulatory Commission, 888 First Street, NE., Room 1-A, Washington, DC 20426. Please affix "Indian River Project No. 12462" to all comments. Comments may be filed electronically via Internet in lieu of paper. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "eFiling" link.

Federal Energy Regulatory Commission

[Project No. 2485-028 Massachusetts]

Northeast Generation Company; Notice of Availability of Environmental Assessment

December 2, 2005.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR part 380), Commission staff have reviewed the application, filed November 16, 2005, by the project licensee, Northeast Generation Company, for a temporary amendment of license for the Northfield Mountain Pumped Storage Project. The request is for a deviation from required project operating limits to allow additional operating flexibility this winter. The project is located on the east side of the Connecticut River, in the towns of Northfield and Erving, in Franklin County, Massachusetts.

The proposal would modify the upper reservoir's water surface elevation limits from 938 and 1000.5 feet mean sea level (msl), to 920 and 1004.5 feet msl, respectively, and allow a maximum daily generation of 10,465 megawatt hours (MWh) under certain ISO-NE emergency operating conditions from December 1, 2005, through March 31, 2006. At all other times, the upper reservoir would be operated within existing limits, and generation would be within the existing maximum limit of 8,475 MWh. The project uses the reservoir at the Turners Falls Project (FERC No. 1889) on the Connecticut River as its lower reservoir, and proposes no changes in its operating elevations.

In the environmental assessment (EA), Commission staff has analyzed the probable environmental effects of the proposed amendment and has concluded that approval, with the addition of staff-recommended measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to the Commission order titled "Order Granting Temporary Amendment of License," issued November 30, 2005, and is available at the Commission's Public Reference Room. A copy of the EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number (P-2485) in the docket number field to access the
