Title: Privacy of Consumer Financial Information (OMB Control No. 3038-

0055). This is a request for an extension of a currently approved information collection.

Abstract: Section 124 of the Commodity Futures Modernization Act of 2000¹ amended the Commodity Exchange Act (the Act) and added a new Section 5g² to the Act to (i) provide that futures commission merchants, commodity trading advisors, commodity pool operators, and introducing brokers that are subject to CFTC jurisdiction with respect to any financial activity shall be treated as a financial institution for purposes of Title V, Subtitle A of the Gramm-Leach-Bliley Act ("GLB Act"), (ii) treat the Commission as a Federal functional regulator for purposes of applying the provisions of the GLB Act, and (iii) direct the Commission to prescribe regulations under Title V of the GLB Act. The Commission adopted regulations for these entities under part 160 and later extended them to retail foreign exchange dealers, swap dealers, and major swap participants.³ Part 160 requires those subject to the regulations, among other things, to provide privacy and opt out notices to customers and to adopt appropriate policies and procedures to safeguard customer records and information. In April 2019, the Commission adopted amendments to its regulations to provide an exception to its annual privacy notice requirement under certain conditions.⁴

With respect to the collection of information, the CFTC invites comments on:

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic,
