I. General Information

A. Does this action apply to me?

This action is directed to the public in general. This action may, however, be of interest to persons who are or may be required to conduct testing of chemical substances under the Federal Food, Drug, and Cosmetic Act (FFDCA) and FIFRA. Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be affected by this action.

8. Make sure to submit your comments by the comment period deadline identified.

C. How may I participate in this meeting?

You may participate in this meeting by following the instructions in this unit. To ensure proper receipt by EPA, it is imperative that you identify docket ID number EPA-HQ-OPP-2014-0614 in the subject line on the first page of your request.

1. *Written comments.* The Agency encourages that written comments be submitted, using the instructions in **ADDRESSES**, no later than November 18, 2014, to provide FIFRA SAP the time necessary to consider and review the written comments. Written comments are accepted until the date of the meeting, but anyone submitting written comments after November 18, 2014, should contact the DFO listed under **FOR FURTHER INFORMATION CONTACT**. Anyone

submitting written comments at the meeting should bring 20 copies for distribution to FIFRA SAP.

2. *Oral comments.* The Agency encourages that each individual or group wishing to make oral comments to FIFRA SAP submit their request to the DFO listed under **FOR FURTHER INFORMATION CONTACT** no later than November 25, 2014, in order to be included on the meeting agenda. Requests to present oral comments will be accepted until the date of the meeting and, to the extent that time permits, the Chair of FIFRA SAP may permit the presentation of oral comments at the meeting by interested persons who have not previously requested time. The request should identify the name of the individual making the presentation, the organization (if any) the individual will represent, and any requirements for audiovisual equipment (e.g., overhead projector, 35 mm projector, chalkboard). Oral comments before FIFRA SAP are limited to approximately 5 minutes unless prior arrangements have been made. In addition, each speaker should bring 20 copies of his or her comments and presentation slides for distribution to FIFRA SAP at the meeting.

3. *Seating at the meeting.* Seating at the meeting will be open and on a first-come basis.

4. *Request for nominations to serve as ad hoc members of FIFRA SAP for this meeting.* As part of a broader process for developing a pool of candidates for each meeting, FIFRA SAP staff routinely solicits the stakeholder community for nominations of prospective candidates for service as ad hoc members of FIFRA SAP. Any interested person or organization may nominate qualified individuals to be considered as prospective candidates for a specific meeting. Individuals nominated for this meeting should have expertise in one or more of the following areas: High Throughput Screening (HTS) *in vitro* assay technology and applications, QSAR methodology, Tier 1 assays (Uterotrophic and Hershberger), *In vitro* assays (Estrogen, Androgen, Thyroid or Steriodogenesis), reproductive biology and toxicology, endocrinology, Mathematical modeling of biological Systems, Bioinformatics, Biomathematics, Statistics, Quantitative modeling and analysis of complex data including Curve-fitting and Outlier detection, Computational exposure modeling, Near-field and far-field exposure modeling, Toxicokinetics and Pharmacokinetics, Environmental fate and transport, Human exposure assessment (including vulnerable or susceptible populations), Ecological exposure assessment. Note: In support

of the U.S. Environmental Protection Agency's (EPA) priority of "Making a Visible Difference in Communities" across the country, the Agency is committed to helping minority, low income, tribal and other vulnerable populations improve their health and environment. In an effort to ensure that actions being proposed by the Agency are taking into consideration input from potential communities with environmental justice concerns, the EPA is offering an opportunity to provide input on the FIFRA SAP meeting to address scientific issues associated with "Integrated Endocrine Activity and Exposure-based Prioritization and Screening". The EPA encourages all grass-root organizations and residents to submit public comments on this issue which is being addressed during the FIFRA Scientific Advisory Panel meeting. The Agency also encourages community environmental justice advocates to give a voice to their communities by nominating candidates for consideration to serve on this panel. Nominees should be scientists who have sufficient professional qualifications, including training and experience, to be capable of providing expert comments on the scientific issues for this meeting. Nominees should be identified by name, occupation, position, address, and telephone number. Nominations should be provided to the DFO listed under **FOR FURTHER INFORMATION CONTACT** on or before September 30, 2014. The Agency will consider all nominations of prospective candidates for this meeting that are received on or before that date. However, final selection of ad hoc members for this meeting is a discretionary function of the Agency.

The selection of scientists to serve on FIFRA SAP is based on the function of the Panel and the expertise needed to address the Agency's charge to the Panel. No interested scientists shall be ineligible to serve by reason of their membership on any other advisory committee to a Federal department or agency or their employment by a Federal department or agency, except the EPA. Other factors considered during the selection process include availability of the potential Panel member to fully participate in the Panel's reviews, absence of any conflicts of interest or appearance of lack of impartiality, independence with respect to the matters under review, and lack of bias. Although financial conflicts of interest, the appearance of lack of impartiality, lack of independence, and bias may result in disqualification, the absence of such concerns does not assure that a candidate will be selected

to serve on FIFRA SAP. Numerous qualified candidates are identified for each Panel. Therefore, selection decisions involve carefully weighing a number of factors including the candidates' areas of expertise and professional qualifications and achieving an overall balance of different scientific perspectives on the Panel. In order to have the collective breadth of experience needed to address the Agency's charge for this meeting, the Agency anticipates selecting approximately 8 ad hoc scientists.

FIFRA SAP members are subject to the provisions of 5 CFR Part 2634—Executive Branch Financial Disclosure, Qualified Trusts, and Certificates of Divestiture, as supplemented by EPA in 5 CFR part 6401. In anticipation of this requirement, prospective candidates for service on FIFRA SAP will be asked to submit confidential financial information which shall fully disclose, among other financial interests, the candidate's employment, stocks, and bonds, and where applicable, sources of research support. The EPA will evaluate the candidate's financial disclosure form to assess whether there are financial conflicts of interest, appearance of a lack of impartiality, or any prior involvement with the development of the documents under consideration (including previous scientific peer review) before the candidate is considered further for service on FIFRA SAP. Those who are selected from the pool of prospective candidates will be asked to attend the public meetings and to participate in the discussion of key issues and assumptions at these meetings. In addition, they will be asked to review and to help finalize the meeting minutes. The list of FIFRA SAP members participating at this meeting will be posted on the FIFRA SAP Web site at <http://www.epa.gov/scipoly/sap> or may be obtained from the OPP Docket at <http://www.regulations.gov>.

II. Background

A. Purpose of FIFRA SAP

FIFRA SAP serves as the primary scientific peer review mechanism of EPA's Office of Chemical Safety and Pollution Prevention (OCSPP) and is structured to provide scientific advice, information and recommendations to the EPA Administrator on pesticides and pesticide-related issues as to the impact of regulatory actions on health and the environment. FIFRA SAP is a Federal advisory committee established in 1975 under FIFRA that operates in accordance with requirements of the Federal Advisory Committee Act. FIFRA

SAP is composed of a permanent panel consisting of seven members who are appointed by the EPA Administrator from nominees provided by the National Institutes of Health and the National Science Foundation. FIFRA established a Science Review Board (SRB) consisting of at least 60 scientists who are available to FIFRA SAP on an ad hoc basis to assist in reviews conducted by FIFRA SAP. As a peer review mechanism, FIFRA SAP provides comments, evaluations, and recommendations to improve the effectiveness and quality of analyses made by Agency scientists. Members of FIFRA SAP are scientists who have sufficient professional qualifications, including training and experience, to provide expert advice and recommendation to the Agency.

B. Public Meeting

This FIFRA SAP meeting will review methods using computational toxicology and exposure tools (i.e., high throughput screening (HTS) assays, and computational models), and other data streams for integrated bioactivity and exposure based prioritization and screening of the universe of EDSP chemicals. Endocrine bioactivity of chemicals will be quantified using HTS *in vitro* estrogen, androgen, and thyroid receptor assays, along with other potential molecular targets, and compared with Tier 1 screening and other *in vivo* assay results obtained from published and publically available peer-reviewed studies. While technical advances in high-throughput toxicity testing of chemicals were presented at a FIFRA SAP meeting in 2013, this SAP will review further advances in computational toxicology exposure science for prioritization and screening of the EDSP universe of chemicals. The ability of the agency to screen the thousands of environmental chemicals in the EDSP universe is substantially limited by the capacity of the current Tier 1 screening methods. Rapid screening of 1000s of chemicals using EPA's ToxCast high throughput assays allows the agency to focus attention on chemicals with the greatest potential endocrine bioactivity. In addition, high throughput models of human and ecological exposure (e.g. ExpoCast) allows the agency to identify chemicals with the greatest potential for exposures that could result in bioactive concentrations. This shift in the EDSP framework allows focus to be placed on chemicals that pose the greatest likelihood of exposures leading to endocrine bioactivity in humans or wildlife. The FIFRA SAP will be requested to respond to charge

questions regarding EPA's proposed integrated bioactivity exposure based approach for ranking chemicals in the EDSP universe for further screening and testing.

C. FIFRA SAP Documents and Meeting Minutes

EPA's background paper, related supporting materials, charge/questions to FIFRA SAP, FIFRA SAP composition (i.e., members and ad hoc members for this meeting), and the meeting agenda will be available by approximately October 27, 2014. In addition, the Agency may provide additional background documents as the materials become available. You may obtain electronic copies of these documents, and certain other related documents that might be available at <http://www.regulations.gov> and the FIFRA SAP Web site at <http://www.epa.gov/scipoly/sap>.

FIFRA SAP will prepare meeting minutes summarizing its recommendations to the Agency approximately 90 days after the meeting. The meeting minutes will be posted on the FIFRA SAP Web site or may be obtained from the OPP Docket at <http://www.regulations.gov>.
