Ash Grove Cement Company Rivergate Lime Plant; Portland, OR; Notice of Affirmative Determination Regarding Application for Reconsideration

By application dated July 24, 2006, a company official requested administrative reconsideration of the Department's Notice of negative determination regarding the subject worker group's eligibility to apply for Trade Adjustment Assistance (TAA) and Alternative Trade Adjustment Assistance (ATAA). The Department's determination was issued on June 12, 2006. The Department's Notice of determination was published in the **Federal Register** on July 14, 2006 (71 FR 40158).

In the request for reconsideration, the company official alleges that the subject firm supplied calcium oxide to a TAA-certified company.

The determination did not state whether the subject worker group is

eligible to apply for TAA as workers of a secondarily-affected firm (a firm which supplied component parts for articles produced by a firm with a currently TAA-certified worker group).

The Department has carefully reviewed the request for reconsideration and has determined that the Department will conduct further investigation based on new information provided.

Conclusion

After careful review of the application, I conclude that the claim is of sufficient weight to justify reconsideration of the Department of Labor's prior decision. The application is, therefore, granted.

Signed at Washington, DC, this 7th day of August 2006.

Linda G. Poole,

Certifying Officer, Division of Trade Adjustment Assistance.

**Eaton Corporation Torque Control
Products Division; Marshall, MI;
Amended Certification Regarding
Eligibility To Apply for Worker
Adjustment Assistance and Alternative
Trade Adjustment Assistance**

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273), and section 246 of the Trade Act of 1974 (26 U.S.C. 2813), as amended, the Department of Labor issued a Certification of Eligibility to Apply for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance on August 25, 2006, applicable to workers of Eaton Corporation, Torque Control Products Division, Marshall, Michigan. The notice was published in the **Federal Register** on September 13, 2006 (71 FR 54095).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the production of automotive differential gears and are not separately identifiable by product line.

New findings show that there was a previous certification, TA-W-54,067, issued on February 17, 2004, covering the identical worker group as the subject firm, who were engaged in employment related to the production of automotive differential gears. That certification expired on February 17, 2006. To avoid an overlap in worker group coverage, the certification is being amended to change the impact date from August 14, 2005 to February 18, 2006, for workers of the subject firm.

The amended notice applicable to TA-W-59,900 is hereby issued as follows:

All workers of Eaton Corporation, Torque Control Products Division, Marshall, Michigan, who became totally or partially separated from employment on or after February 18, 2006, through August 25, 2008, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974 and are also eligible to apply for alternative trade adjustment assistance under Section 246 of the Trade Act of 1974.

Signed at Washington, DC, this 14th day of September 2006.
