SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0931.

Title: Sections 0.131 and 80.103, Digital Selective Calling (DSC) Operating Procedures—Maritime Mobile Identity (MMSI).

Form Number: N/A.

Type of Review: Extension of an existing collection.

Respondents: Individuals or households, businesses or other for-profit and Federal Government.

Number of Respondents and Responses: 40,000 respondents; 40,000 responses.

Estimated Time per Response: .25 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation To Respond: Required to obtain or retain benefits. There is no statutory authority for this information collection. The reporting requirement is in international agreements and ITU-R M.541-9.

Total Annual Burden: 10,000 hours.

Total Annual Cost: None.

Privacy Act Impact Assessment: Yes.

Nature and Extent of Confidentiality: There is a need for confidentiality with respect to all owners of Marine VHF radios with Digital Selective Calling (DSC) capability in this information collection. Pursuant to section 208(b) of the E-Government Act of 2002, 44 U.S.C. 3501, in conformance with the Privacy Act of 1974, 5 U.S.C. 552(a), the Wireless Telecommunications Bureau instructs licensees to use the FCC Universal Licensing System (ULS), Antenna Structure Registration (ASR), Commission Registration System (CORES) and related systems and subsystems to submit information. CORES is used to receive an FCC Registration Number (FRN) and password, after which one must register all current call signs and ASR numbers associated with a FRN within the bureau's system of records (ULS database). Although ULS stores all information pertaining to the individual license via the FRN, confidential information is accessible only by persons or entities that hold the password for each account, and the bureau's Licensing Division staff. Upon the request of FRN, the individual licensee is consenting to make publicly available, via the ULS database, all information that is not confidential in nature.

Needs and Uses: The Commission will submit this information collection to the OMB for review and approval in order to obtain the full three-year clearance from them. The Commission is requesting approval of an extension (no change in the reporting and/or third party disclosure requirements). There is a significant increase in the estimated burden hours, which is due to an adjusted increase in the number of respondents/responses, which was 2,000 in 2006 and 40,000 at this time of submission to the OMB. Therefore, the hourly burden has increased from 1,000 hours in 2006 to 10,000 hours at this time.

This information collection is necessary to require owners of marine VHF radios with Digital Selective Calling (DSC) capability to register

information such as name, address, and type of vessel, with a private entity issuing marine mobile service identities (MMSI). The Commission collects this information and assigns MMSIs through the ship station licensing process; however, those ship stations operating domestically are not required to obtain an individual license and are licensed by rule. The Commission developed procedures to privatize the issuance of MMSIs by providing blocks of MMSI numbers to qualified entities for distribution to ship vessel operators that are not required by law to carry a radio and do not make international voyages or communications.

The Commission has a Memorandum of Understanding (MOU) with the U.S. Coast Guard and the private entities to collect the data that is on Attachment A. The information would be used by search and rescue personnel to identify vessels in distress and to select the proper rescue units and search methods. The requirement to collect this information is not contained in a formal FCC order, but in the agreements the FCC executes with private sector entities that issue MMSIs and 47 CFR 80.103, which requires ship owners using VHF radios with DSC to have an MMSI.

The information is used by private entities to maintain a database used to provide information about the vessel owner in distress using marine VHF radios with DSC capability. If the collection were not conducted, the U.S. Coast Guard would not have access to this information, which would increase the time needed to complete a search and rescue operation.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission, Comments Requested

June 3, 2009.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, 44 U.S.C. 3501-3520.

An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 10, 2009. If you anticipate that you will be submitting PRA comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the FCC contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicholas A. Fraser, Office of Management and Budget, via fax at 202-395-5167 or via Internet at Nicholas_A.Fraser@omb.eop.gov and to Judith-B.Herman@fcc.gov, Federal Communications Commission, and an e-mail to PRA@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information, contact Judith B. Herman at 202-418-0214 or via the Internet at Judith-B.Herman@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0810.

Title: Procedures for Designation of Eligible Telecommunications Carriers (ETCs) Pursuant to Section 214(e)(6) of the Communications Act of 1934, as amended.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 100 respondents; 100 responses.

Estimated Time per Response: 2-60 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 9,200 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the FCC. However, respondents may request confidential treatment of information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance from them. The Commission is requesting an extension (no change in the on reporting and/or third party disclosure requirements). There is a change in the estimated total annual burden. During the conduct of the Commission's review of this information collection, it was discovered that a typographical error was made in the calculation of the burden hours for the 2005 extension. The total estimated number of burden hours should have been reported as 9,200 hours rather than 6,200 hours reported to OMB. With this submission to the OMB, we are reporting more accurate estimates.

Section 214(e)(6) states that a telecommunications carrier that is not subject to the jurisdiction of a state may request that the Commission determine whether it is eligible to receive universal service support. The Commission must evaluate whether such telecommunications carriers meet the eligibility criteria set forth in the Act. The Commission concluded that petitions for designation filed under Section 214(e)(6) relating to "near reservation" areas will not be considered as petitions relating to tribal lands and as a result, petitioners seeking eligible telecommunications carrier (ETC) designation in such areas must follow the procedures outlined in CC Docket No. 96-45, *Twelfth Report and Order and Further Notice of Proposed Rulemaking*, FCC 00-208 (rel. June 8, 2000), (Tribal Lands Order), for non-tribal lands prior to submitting a request for designation to this Commission under Section 214(e)(6).

OMB Control Number: 3060-0824.

Title: Service Provider Identification Number (SPIN) and Contact Form.

Form No.: FCC Form 498.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities and not-for-profit institutions.

Number of Respondents: 5,000 respondents; 5,000 responses.

Estimated Time Per Response: 1.5 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Burden: 7,500 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting that respondents submit confidential information to the FCC. However, respondents may request confidential treatment of information they believe to be confidential under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission will submit this information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance from them. The Commission is requesting a revision of this information collection. There is no change in the estimated burden hours. As detailed in the Supporting Statement that will be submitted to the OMB for review and approval, the Commission proposes changes to certain parts of the FCC Form 498 to improve the efficiency of administering the universal service support mechanism. Specifically, the Commission proposes:

- (1) adding two options for service providers to indicate the reason for submitting the FCC Form 498;
- (2) clarifying the information for the general contact person, the program specific contact persons, and the officer certifying the form;
- (3) requiring the submission of the service provider's Dunn and Bradstreet number;
- (4) eliminating the option to receive paper checks and requiring financial institution remittance information in order to make electronic disbursements in accordance with the requirements of the Debt Collection Improvement Act of 1996;
- (5) requiring the submission of study area codes for service providers that receive High-Cost and Low-Income support; and
- (6) giving service providers the option of choosing more than one business description for their companies.

The information collected on FCC Form 498 is used by the Universal Service Administrative Company (USAC) to disburse federal universal service support consistent with the specifications of carriers and service providers who participate and receive support from any of the four universal service support mechanisms (High-Cost, Low-Income, Rural Health Care and Schools and Libraries). FCC Form 498 submissions also provide USAC with

updated contact information, enabling USAC to contact universal service fund participants when necessary.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-1115.

Title: DTV Consumer Education Initiative; Section 73.674; FCC Form 388.

Form Number: FCC Form 388.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; not-for-profit institutions; State, local or tribal governments.

Number of Respondents and Responses: 200 respondents; 1,800 responses.

Estimated Time per Response: 0.50 hour–85 hours.

Frequency of Response: On occasion reporting requirement; Quarterly reporting requirement; Third party disclosure requirement.

Obligation to Respond: Required to obtain benefits. The statutory authority for this collection of information is contained in Sections 4(i), 303(r), 335, and 336 of the Communications Act of 1934, as amended, 47 U.S.C. 154(i), 303(r), 335, and 336.

Total Annual Burden: 10,940 hours.

Total Annual Cost: None.

Confidentiality: No need for confidentiality required with this collection of information.

Privacy Impact Assessment: No impact(s).

Needs and Uses: After the nationwide DTV transition date of June 12, 2009, full-power television broadcast stations must transmit only digital signals, and may no longer transmit analog signals, except for limited analog “nightlight” service. The DTV Delay Act directs the Commission to take any actions “necessary or appropriate to implement the provisions, and carry out the purposes” of the DTV Delay Act, and to do so within 30 days. Congress extended the transition date in order to permit analog service to continue until consumers have had additional time to prepare. But Congress also directed the Commission to provide flexibility for stations wanting to transition prior to the new date. Stations may have made extensive preparations for a February 17 digital transition and some may have difficulty altering their commitments at this time. The Commission's challenge is to provide opportunities for some stations to end analog broadcasting early without sacrificing the goal of giving consumers additional time to prepare.

Therefore, Commission is revising this information collection to eliminate most of the requirements after June 30, 2009; however, broadcasters must continue to comply with the consumer education information collection requirements until they have completed, and are operating, their final, full-authorized post-transition (DTV) facility.

The information collection requirements that will remain in the collection are as follows:
