A. Regulatory History and Information

On December 30, 2014, The Coast Guard published an NPRM entitled Safety Zone; Triathlon National Championships, Milwaukee Harbor, Milwaukee, Wisconsin in the **Federal Register** (79 FR 78369). We did not receive any comments in response to the proposed rule. No public meeting was requested and none was held.

B. Basis and Purpose

The legal basis for this rule is the Coast Guard’s authority to establish safety zones: 33 U.S.C. 1231; 33 CFR 1.05–1, 160.5; Department of Homeland Security Delegation No. 0170.1.

In 2014, the Coast Guard was informed that the Olympic and Sprint Distance National Championships are scheduled to return to Milwaukee Harbor in 2015. Within and around Milwaukee Harbor at Lakeshore inlet, this event is expected to involve thousands of participants competing in a swim race surrounded by thousands of spectators. The swim portion of this event is anticipated to occur on three days during the second week of August, 2015. The Captain of the Port Lake Michigan has determined that the

likelihood of transiting watercraft during the swim competition involving a large number of competitors presents a significant risk of serious injuries or fatalities.

C. Discussion of Comments, Changes and the Final Rule

The Captain of the Port Lake Michigan has determined that a safety zone is necessary to mitigate the aforementioned safety risks. Thus, this rule establishes a safety zone that encompasses all waters of Milwaukee Harbor, including Lakeshore inlet and the Marina at Pier Wisconsin, west of an imaginary line across the entrance to the Marina at Pier Wisconsin connecting coordinates 43°02.253’ N., 087°53.623’ W. and 43°01.737’ N., 087°53.727’ W. (NAD 83).

This rule will be effective from August 1, 2015, until August 30, 2015. Additionally, the Coast Guard anticipates that this safety zone will be enforced from 10:30 a.m. until 2:30 p.m. on August 7; from 6:30 a.m. until 4:30 p.m. on August 8, and from 6:30 a.m. until 11:30 a.m. on August 9, 2015. This 2015 enforcement schedule may change, and in the event of a change, the Captain of the Port Lake Michigan will issue a Notice of Enforcement with an updated enforcement schedule.

The Captain of the Port Lake Michigan will notify the public that the zone in this rule is or will be enforced by all appropriate means to the affected segments of the public including publication in the **Federal Register** as practicable, in accordance with 33 CFR 165.7(a). Such means of notification may also include, but are not limited to Broadcast Notice to Mariners or Local Notice to Mariners.

All persons and vessels shall comply with the instructions of the Captain of the Port Lake Michigan or her designated on-scene representative. Entry into, transiting, or anchoring within the safety zone is prohibited unless authorized by the Captain of the Port Lake Michigan or her designated on-scene representative. The Captain of

the Port Lake Michigan or her designated on-scene representative may be contacted via VHF Channel 16.

D. Regulatory Analyses

We developed this rule after considering numerous statutes and executive orders related to rulemaking. Below we summarize our analyses based on these statutes or executive orders.

1. Regulatory Planning and Review

This rule is not a significant regulatory action under section 3(f) of Executive Order 12866, Regulatory Planning and Review, and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not “significant” under the regulatory policies and procedures of the Department of Homeland Security (DHS). We conclude that this rule is not a significant regulatory action because we anticipate that it will have minimal impact on the economy, will not interfere with other agencies, will not adversely alter the budget of any grant or loan recipients, and will not raise any novel legal or policy issues. Overall, we expect the economic impact of this rule to be minimal and that a full Regulatory Evaluation is unnecessary.

2. Impact on Small Entities

Under the Regulatory Flexibility Act, 5 U.S.C. 601–612, we have considered whether this rule would have significant economic impact on a substantial number of small entities. The term “small entities” comprises small businesses, not-for-profit organizations that are independently owned and operated and are not dominant in their fields, and governmental jurisdictions with populations of less than 50,000. The Coast Guard certifies under 5 U.S.C. 605(b) that this rule would not have a significant economic impact on a substantial number of small entities.

This rule will affect the following entities, some of which might be small entities: The owners or operators of vessels intending to transit or anchor within the waters of the marina at Pier Wisconsin or Lakeshore inlet during the times in which the safety zone is enforced in August of 2015.

This safety zone will not have a significant economic impact on a substantial number of small entities for the following reasons: This rule will be enforced for a limited time during the month of August; further, this safety zone has been designed to allow traffic to pass safely around the zone whenever possible, and vessels will be allowed to

pass through the zone with the permission of the Captain of the Port.

3. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them and participate in the rulemaking process. If this rule would affect your small business, organization, or governmental jurisdiction and you have questions concerning its provisions or options for compliance, please contact the person listed in **FOR FURTHER INFORMATION CONTACT** section, above. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard.

4. Collection of Information

This rule calls for no new collection of information under the Paperwork Reduction Act of 1995 (44 U.S.C. 3501–3520).

5. Federalism

A rule has implications for federalism under Executive Order 13132, Federalism, if it has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under that Order and have determined that it does not have implications for federalism.

6. Protest Activities

The Coast Guard respects the First Amendment rights of protesters. Protesters are asked to contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to coordinate protest activities so that your message can be received without jeopardizing the safety or security of people, places or vessels.

7. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995 (2 U.S.C. 1531–1538) requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of \$100,000,000 (adjusted for inflation) or more in any one year. Though this rule would not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

8. Taking of Private Property

This rule would not affect a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

9. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988, Civil Justice Reform, to minimize litigation, eliminate ambiguity, and reduce burden.

10. Protection of Children

We have analyzed this rule under Executive Order 13045, Protection of Children from Environmental Health Risks and Safety Risks. This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

11. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

12. Energy Effects

This action is not a “significant energy action” under Executive Order 13211, Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use.

13. Technical Standards

This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

14. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D, which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (NEPA) (42 U.S.C. 4321–4370f), and have determined that this action is one of a category of actions which do not individually or cumulatively have a significant effect on the human environment. This rule involves the establishment of a safety zone and thus, is categorically excluded under paragraph (34)(g) of the Instruction. An environmental analysis checklist

supporting this determination is available in the docket where indicated under **ADDRESSES**. We seek any comments or information that may lead to the discovery of a significant environmental impact from this rule.

Approval and Promulgation of Air Quality Implementation Plans; West Virginia’s Redesignation Request and Associated Maintenance Plan of the West Virginia Portion of the Martinsburg-Hagerstown, WV-MD Nonattainment Area for the 1997 Annual Fine Particulate Matter Standard; Correction

AGENCY: Environmental Protection Agency.

ACTION: Final rule; correcting amendments.

SUMMARY: This document corrects an error in the rule language of a final rule pertaining to West Virginia’s request to redesignate to attainment the West Virginia portion of the Martinsburg-Hagerstown, WV-MD nonattainment area for the 1997 annual fine particulate matter (PM_{2.5}) national ambient air quality standard (NAAQS), which was

published in the **Federal Register** on Tuesday, November 25, 2014 (79 FR 70099).

DATES: This document is effective on February 13, 2015.

FOR FURTHER INFORMATION CONTACT: Rose Quinto, (215) 814–2182 or by email at quinto.rose@epa.gov.

SUPPLEMENTARY INFORMATION: On November 25, 2014 (79 FR 70099), the Environmental Protection Agency (EPA) published a final rulemaking action announcing the approval of West Virginia’s request to redesignate to attainment the Martinsburg-Hagerstown, WV-MD nonattainment area for the 1997 annual PM_{2.5} NAAQS.

Need for Correction

As published, the final redesignation contains an error. EPA inadvertently added the word “Moderate” in the table for the 1997 annual PM_{2.5} NAAQS. The intent of the final rule was to redesignate the Area to attainment. Moderate is a classification for nonattainment areas. This action corrects the table of 40 CFR part 81 for West Virginia’s 1997 annual PM_{2.5} NAAQS.
