Total Estimated Number of Annual Burden Hours: 93.

Abstract: The U.S. Department of Education (ED)’s Institute of Education Sciences (IES) requests clearance for data collection activities to evaluate teacher residency programs’ contributions to the teacher workforce. Specifically, this request covers the collection of data to understand the extent to which teacher residency programs funded by ED’s Teacher Quality Partnership (TQP) grants help diversify the teacher pipeline and fill hard-to-staff teaching positions in their partner districts. The Higher Education Act established the TQP program to support partnerships between teacher preparation programs and high-need districts to implement teacher residency programs. The study will collect data on newly hired teachers from the school districts and charter school networks

(referred to throughout as “districts”) that partner with TQP grantees. If some districts are unable to provide data on new hires from TQP-funded residency programs, we will collect those data from TQP grantees.

PE Hydro Generation, LLC; Notice of Intent To Prepare an Environmental Assessment

On January 3, 2022, PE Hydro Generation, LLC filed a subsequent minor license application for the 750-kilowatt Warren Hydroelectric Project No. 2391 (project). The project is located on the Shenandoah River, near the Town of Front Royal, in Warren County, Virginia.

In accordance with the Commission’s regulations, on October 18, 2024, Commission staff issued a notice that the project was ready for environmental analysis (REA Notice). Based on the information in the record, staff does not anticipate that licensing the project would constitute a major Federal action significantly affecting the quality of the human environment. Therefore, staff intends to prepare an Environmental Assessment (EA) on the application to license the project.¹

The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission’s final licensing decision.

The Commission’s Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members, and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502–6595 or OPP@ferc.gov.

The application will be processed according to the following schedule. Revisions to the schedule may be made as appropriate.

Milestone	Target date
Commission issues EA	December 31, 2025.

Any questions regarding this notice may be directed to Kristine Sillett at (202) 502–6575 or kristine.sillett@ferc.gov.
