

innovators from underrepresented backgrounds.

For this RFI, examples of Federal programs and resources to support the innovation ecosystem include STEM education programs, Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) program participation, entrepreneurial training for researchers (e.g., the Innovation Corps I-Corps™ program), collaboration with Federal laboratories, commercialization funding, and other phases of the research, development, demonstration, and deployment (RDD&D) continuum.

Background: The NSTC L2M Subcommittee was established to strengthen the nation's ability to transition Federally-funded innovations from the laboratory to the marketplace. One strategy to accomplish this aim is to enhance participation in the innovation ecosystem. Innovation ecosystem describes the complex community of participants and resources needed to develop and commercialize technology. This ecosystem includes the people (e.g., students, faculty, industry researchers, investors) that make up the institutional entities (e.g., universities, businesses, funding agencies, venture capital firms, state and local economic development organizations, entrepreneur support organizations), material resources (e.g., funding, equipment, facilities), and the relationships among these interconnected actors. Innovation ecosystems may operate at different geographic levels (e.g., city, regional, national) and within multiple sectors (e.g., health, energy, agriculture).

Entrepreneurs may lack knowledge about these resources and have difficulty navigating them, which poses significant barriers to participation. Ensuring that access to resources and capital are available to all Americans as well as ensuring the benefits of entrepreneurship are accessible across the nation are critical in creating a robust and dynamic workforce with inclusive growth.

Information Requested

OSTP seeks responses to the following questions to improve inclusive and equitable access for our nation's diverse pool of innovators and emerging entrepreneurs in Federal science and technology programs. Respondents may provide information for one or as many topics below as they choose. In your response, please indicate your role in the innovation ecosystem (e.g., entrepreneur, investor, ecosystem connector, researcher in

academia, state economic development representative).

Executive Order 13985 defines underserved communities as populations sharing a particular characteristic that have been systematically denied a full opportunity to participate in aspects of economic, social, and civic life.

1. a. In your experience, what are barriers to participation in the innovation ecosystem?

b. Do barriers exist that are unique to innovators from specific underrepresented backgrounds or underserved communities? If so, what are those barriers?

c. How can the Federal government identify the specific barriers, problems, or issues faced by innovators and emerging entrepreneurs from underrepresented backgrounds or underserved communities as they seek to engage with Federal programs and services?

2. How can the Federal government increase participation in the innovation ecosystem by innovators from backgrounds and communities underrepresented in the current ecosystem? In your response, please provide your definition of "underrepresented" or "underserved".

3. How can the Federal government meet the specific needs (e.g., training, support, other) of innovators and emerging entrepreneurs from backgrounds and communities underrepresented in the innovation ecosystem by either improving existing government programs or initiatives, or by offering new government programs or initiatives?

4. Are there examples of programs that have seen success in supporting innovators from underrepresented backgrounds and underserved communities in the innovation ecosystem? What are the critical success factors of these programs?

SUPPLEMENTARY INFORMATION:

A. Need For and Use of the Information Collection

Section 10b of the Federal Home Loan Bank Act (Bank Act) establishes the requirements for making Federal Home Loan Bank (Bank) advances (secured loans) to nonmember mortgagees, which are referred to as “Housing Associates” in FHFA’s regulations.¹ Section 10b also establishes the eligibility requirements an applicant must meet in order to be certified as a Housing Associate.

Part 1264 of FHFA’s regulations implements the statutory eligibility requirements and establishes uniform review criteria the Banks must use in evaluating applications from entities that wish to be certified as a Housing Associate. Specifically, § 1264.4 implements the statutory eligibility requirements and provides guidance to an applicant on how it may satisfy those requirements.² Section 1264.5 authorizes the Banks to approve or deny all applications for certification as a Housing Associate, subject to the statutory and regulatory requirements.³ Section 1264.6 permits an applicant that has been denied certification by a Bank to appeal that decision to FHFA.⁴

In part 1266 of FHFA’s regulations, subpart B governs Bank advances to Housing Associates that have been approved under part 1264. Section 1266.17 establishes the terms and conditions under which a Bank may make advances to Housing Associates.⁵ Specifically, § 1266.17(e) imposes a continuing obligation on each certified Housing Associate to provide information necessary for the Bank to determine if it remains in compliance with applicable statutory and regulatory requirements, as set forth in part 1264.

The OMB control number for the information collection, which expires on June 30, 2022, is 2590–0001. The likely respondents include entities applying to be certified as a Housing Associate and current Housing Associates.

B. Burden Estimates

FHFA estimates the total annualized hour burden imposed upon respondents by this information collection to be 314 hours (14 hours for applicants + 300 hours for current Housing Associates), based on the following calculations:

I. Applicants

FHFA estimates that the total annual average number of entities applying to be certified as a Housing Associate over the next three years will be one, with one response per applicant. The estimate for the average hours per application is 14 hours. Therefore, the estimate for the total annual hour burden for all applicants is 14 hours (1 applicant × 1 response per applicant × 14 hours = 14 hours).

II. Current Housing Associates

FHFA estimates that the total annual average number of existing Housing Associates over the next three years will be 75, with one response per Housing Associate required to comply with the regulatory reporting requirements. The estimate for the average hours per response is 4 hours. Therefore, the estimate for the total annual hour burden for current Housing Associates is 300 hours (75 certified Housing Associates × 1 response per associate × 4 hours = 300 hours).

C. Comments Request

In accordance with the requirements of 5 CFR 1320.8(d), FHFA published an initial notice and request for public comments regarding this information collection in the **Federal Register** on March 3, 2022.⁶ The 60-day comment period closed on May 2, 2022. FHFA received no comments.

FHFA requests written comments on the following: (1) Whether the collection of information is necessary for the proper performance of FHFA functions, including whether the information has practical utility; (2) the accuracy of FHFA’s estimates of the burdens of the collection of information; (3) ways to enhance the quality, utility, and clarity of the information collected; and (4) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
