It is a form of deliberation involving an exchange of judgments about the appropriateness of methods and the strength of the author's inferences. Peer review involves the review of a draft product for quality by specialists in the field who were not involved in producing the draft. The selection of participants in a peer review is based on expertise, with due consideration of independence and conflict of interest. The Bulletin states " * * * the agency must address reviewers' potential conflicts of interest (including those stemming from ties to regulated businesses and other stakeholders) and independence from the agency." The Conflict of Interest and Disclosure form will be used to determine whether or not a conflict of interest exists for a potential peer review panel member.
