It also helps the public understand our information collection requirements and provide the requested data in the desired format.

We are soliciting comments on the proposed ICR that is described below. We are especially interested in public comment addressing the following issues: (1) Is the collection necessary to the proper functions of the USGS; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the USGS enhance the quality, utility, and clarity of the information to be collected; and (5) how might the USGS minimize the burden of this collection on the respondents, including through the use of information technology.

Comments that you submit in response to this notice are a matter of public record. We will include or summarize each comment in our request to OMB to approve this ICR. Before including your address, phone number, email address, or other personally identifiable information (PII) in your comment, you should be aware that your entire comment—including your PII—may be made publicly available at any time. Abstract: The USGS National Wildlife Health Center (NWHC) collects information on the presence of highly consequential wildlife diseases and the occurrence of wildlife morbidity/mortality events nationwide to aid in outbreak investigations conducted by land-management agencies and as part of their mission-critical activities associated with response to animal health emergencies (Emergency Support Function 11). The collected information is used to provide situational awareness of potential zoonotic disease threats to human- and agricultural-health agencies and to assist land-management agencies with management decisions. NWHC requests that state, federal, and tribal natural-resource managers report wildlife morbidity and mortality events and collaborate on national-scale surveillance. Reported information includes the location, land ownership, and date(s) where the event occurred or sample was taken; capture methods and sample type, species sampled, and individual characteristics such as sex, age, and size; any clinical signs or other

event history observed; habitat characteristics known to affect the suspected disease process, such as habitat type, habitat cover, temperature, precipitation, or others; laboratory-confirmed or suspected diagnoses; and contact information for the person reporting the event or submitting the sample. NWHC reports back the results of diagnostic testing and cause of death (if applicable) to the submitter and provides generalized information to registered users through our WHISPer platform, where users can search and download current and historical trends in wildlife diseases (in accordance with the open data policy and FAIR standards).

Title of Collection: Wildlife morbidity/mortality or disease surveillance event reporting.

OMB Control Number: 1028-NEW.

Form Number: None.

Type of Review: An existing collection without an OMB number.

Respondents/Affected Public: Employees of state, federal, or tribal agencies with wildlife-management authority.

Total Estimated Number of Annual Respondents: 400.

Total Estimated Number of Annual Responses: 400.

Estimated Completion Time per Response: 15 min.

Total Estimated Number of Annual Burden Hours: 100.

Respondent's Obligation: Voluntary.

Frequency of Collection: Per wildlife health event, frequency depends on the number of events experienced by an agency/management unit.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*).

Legal Authority

Section 201 of the Controlled Substances Act (CSA) (21 U.S.C. 811) authorizes the Attorney General, by regulation, to exempt from certain provisions of the CSA certain compounds, mixtures, or preparations containing a controlled substance, if he finds that such compounds, mixtures, or preparations meet the requirements detailed in 21 U.S.C. 811(g)(3)(B).¹ The

¹ This authority has been delegated from the Attorney General to the DEA Administrator by 28 CFR 0.100, and subsequently redelegated to the Deputy Assistant Administrator pursuant to 28 CFR

Drug Enforcement Administration (DEA) regulations at 21 CFR 1308.23 and 1308.24 further detail the criteria by which the DEA Deputy Assistant Administrator may exempt a chemical preparation or mixture from certain provisions of the CSA. The Deputy Assistant Administrator may, pursuant to 21 CFR 1308.23(f), modify or revoke the criteria by which exemptions are granted and modify the scope of exemptions at any time.

Exempt Chemical Preparation Applications Submitted Between July 1, 2021, and December 31, 2021

The Deputy Assistant Administrator received applications between July 1, 2021, and December 31, 2021, requesting exempt chemical preparation status detailed in 21 CFR 1308.23. Pursuant to the criteria stated in 21 U.S.C. 811(g)(3)(B) and in 21 CFR 1308.23, the Deputy Assistant Administrator has found that each of the compounds, mixtures, and preparations described in Chart I below is intended for laboratory, industrial, educational, or special research purposes and not for general administration to a human being or animal and either: (1) Contains no narcotic controlled substance and is packaged in such a form or concentration that the packaged quantity does not present any significant potential for abuse; or (2) contains either a narcotic or non-narcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion, or concentration that the preparation or mixture does not present any potential for abuse and, if the preparation or mixture contains a narcotic controlled substance, is formulated in such a manner that it incorporates methods of denaturing or other means so that the preparation or mixture is not liable to be abused or have ill effects, if abused, and so that the narcotic substance cannot in practice be removed.

Accordingly, pursuant to 21 U.S.C. 811(g)(3)(B), 21 CFR 1308.23, and 21 CFR 1308.24, the Deputy Assistant Administrator has determined that each of the chemical preparations or mixtures generally described in Chart I below and specifically described in the application materials received by DEA is exempt, to the extent described in 21 CFR 1308.24, from application of sections 302, 303, 305, 306, 307, 308, 309, 1002, 1003, and 1004 (21 U.S.C. 822-823, 825-829, and 952-954) of the CSA, and 21 CFR 1301.74, as of the date that was

0.104 and Section 7 of the appendix to subpart R of part 0.

provided in the approval letters to the individual requesters.

Scope of Approval

The exemptions are applicable only to the precise preparation or mixture described in the application submitted to DEA in the form(s) listed in this order and only for those above mentioned sections of the CSA and the CFR. In accordance with 21 CFR 1308.24(h), any change in the quantitative or qualitative composition of the preparation or mixture, or change in the trade name or other designation of the preparation or mixture after the date of application requires a new application. The requirements set forth in 21 CFR

1308.24(b)–(e) apply to the exempted materials. In accordance with 21 CFR 1308.24(g), DEA may prescribe requirements other than those set forth in 21 CFR 1308.24(b)–(e) on a case-by-case basis for materials exempted in bulk quantities. Accordingly, in order to limit opportunity for diversion from the larger bulk quantities, DEA has determined that each of the exempted bulk products listed in this order may only be used in-house by the manufacturer, and may not be distributed for any purpose, or transported to other facilities.

Additional exempt chemical preparation requests received between July 1, 2021, and December 31, 2021,

and not otherwise referenced in this order, may remain under consideration until DEA receives additional information required, pursuant to 21 CFR 1308.23(d), as detailed in separate correspondence to individual requesters. DEA's order on such requests will be communicated to the public in a future **Federal Register** publication.

DEA also notes that these exemptions are limited to exemption from only those sections of the CSA and the CFR that are specifically identified in 21 CFR 1308.24(a). All other requirements of the CSA and the CFR apply, including registration as an importer as required by 21 U.S.C. 957.
