404.310–404.311 and 20 CFR Subpart F, 404.601–401.603—0960–0618. One of the requirements for obtaining Social Security benefits is the filing of an application so that a determination may be made on the applicant's eligibility for monthly benefits. In addition to the traditional paper application, SSA has developed various options for the public to add convenience and operational efficiency to the application process. The total estimated number of respondents to all application collections formats is 3,843,369 with a cumulative total of 995,457 burden hours. The respondents are applicants for RIB, DIB, and/or spouses' benefits.

Please note that burden hours for applications taken through the Modernized Claims System (MCS) are accounted for in the hardcopy collection formats. MCS is an electronic collection method that mirrors the hardcopy application formats. Guided by the MCS collection screens, an SSA representative interviews the applicant and inputs the information directly into SSA's application database. MCS offers the representative prompts based on the type of application being filed and the circumstances of the applicant. These prompts facilitate a more complete initial application, saving both the agency and applicant time. MCS also propagates identity and similar information within the application, which saves additional time.

Type of Request: Revision of an OMB-approved information collection (ISBA collection only).

Internet Social Security Benefits Application (ISBA)

ISBA, which is available through SSA's Internet site, is one method that an individual can choose to file an application for benefits. Individuals can use ISBA to apply for retirement insurance benefits (RIB), disability insurance benefits (DIB) and spouse's insurance benefits based on age. SSA gathers only information relevant to the individual applicant's circumstances and will use the information collected by ISBA to entitle individuals to RIB, DIB, and/or spouses' benefits. The respondents are applicants for RIB, DIB, and/or spouses' benefits.

Paper Application Forms

Application for Retirement Insurance Benefits (SSA-1)

The SSA-1 is used by SSA to determine an individual's entitlement to retirement insurance benefits. In order to receive Social Security retirement insurance benefits, an individual must file an application with the SSA. individuals with disabilities, SSA plans to award seven cooperative agreements for the purpose of developing service delivery systems to assist youth with disabilities to successfully transition from school to work. SSA is funding two coordinated contracts to provide (1) technical assistance and (2) an evaluation. SSA will work with the Evaluation Contractor to use the results to conduct a net outcome evaluation to determine the long-term effectiveness of the interventions, impacts, and benefits of the demonstration. Evaluation data will be used by the projects to improve the efficiency of the project's operations; use of staff; linkages between the project and the agencies through which comprehensive services are arranged; and specific aspects of service delivery to better meet the needs of the targeted population. This type of project is authorized by sections 1110 and 234 of the Social Security Act. The respondents will be youth with disabilities who have enrolled in this project.

An individual may satisfy this requirement by completing an HA-539. SSA uses the information collected to document the individual's request to be made a substitute party for a deceased claimant, and to make a decision on whom, if anyone, should become a substitute party for the deceased. The respondents are individuals requesting hearings on behalf of deceased claimants for Social Security benefits.

 3. *Benefits Planning, Assistance, and Outreach (BPAO) Program—0960-0629.*

Background

SSA awarded cooperative agreements to establish community-based benefits planning, assistance, and outreach projects in every State and U.S. Territory, as it is authorized to do under Section 1149 of the Social Security Act. Potential awardees were State and local governments, public and private organizations, and nonprofit and for-profit organizations. SSA intended to establish as many projects as needed to ensure state-wide coverage for all Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) beneficiaries nationally. The projects funded under this cooperative agreement program are part of SSA's strategy to increase the number of beneficiaries who return to work and achieve self-sufficiency as the result of delivering direct services to them. The overall goal of the program is to disseminate accurate information

concerning work incentives programs and issues related to youth programs to beneficiaries with disabilities (including transition-to-work aged youth), in order to enable them to make informed choices about work.

Collection Activities

The BPAO project collects identifying information from the project sites and benefits specialists. In addition, data are collected from the beneficiaries on background, employment, training, benefits, and work incentives. We use the information to manage the program, with particular emphasis on contract administration, budgeting, and training. In addition, SSA uses the information to evaluate the efficacy of the program and to ensure that those dollars appropriated for BPAO services are being spent on SSA beneficiaries. The project data will be valuable to SSA in its analysis of and future planning for the SSDI and SSI programs.

Type of Request: Extension of an OMB-approved information collection.

Huron & Eastern Railway Company, Inc.—Acquisition and Operation Exemption—Central Michigan Railway Company

Huron & Eastern Railway Company, Inc. (HESR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to acquire from the Central Michigan Railway Company (CMRY) and operate approximately 99.87 miles of rail line, as follows: (1) The Midland Sub, between milepost 0.0 and milepost 15.0; (2) between Durand, MI (milepost 0.0) and Wheeler, MI (milepost 3.5); (3) between Genesee, MI (milepost 101.3) and Paines, MI (milepost 96.0); (4) between Interstate Highway 75 (milepost 17.21) and CSX Yard (milepost 18.07); (5) between Durand (milepost 69.2) and M21 (milepost 80.8); (6) the Anderson Lead, between milepost 79.2 and milepost 81.4; (7) the Owosso Industrial Track, between milepost 80.1 and milepost 0.7; (8) between Marquette, MI (milepost 0.0) and Prairie, MI (milepost 1.7); (9) between Essexville CMR Bridge (milepost 0.0) and Pine Street (milepost 2.87); (10) between Wheeler (milepost 3.5) and MDOT ownership (milepost 5.0); and (11) the HECLA Belt line between the east line of Patterson Street in West Bay City, MI (milepost 1.9) and the end of the line (milepost 2.8).¹

HESR is also acquiring the right to operate over the Bay City Yard Line²

¹ An amendment was filed on January 6, 2004, reflecting the correct length of the HECLA Belt line.

² The Bay City Yard Line is owned by the Detroit & Mackinac Railway Company (D&M), an affiliate of CMRY. Lake State Railway Company (Lake State) has an easement to operate over, and CMRY has

between the south end of North Bay City Yard (milepost 55.77) and the north end of North Bay City Yard at the Centerline of Bangor Road (milepost 2.62).³

Additionally, HESR is acquiring approximately 16.55 miles of incidental trackage rights as follows: (1) Over Grand Trunk Western Railroad Company, (a) over the Saginaw Subdivision, between milepost 0.00 and milepost 0.60, (b) over the Holly-Grand Rapids Subdivision, between milepost 65.50 and milepost 69.00,⁴ and (c) over the Flint Subdivision, between milepost 253.0 and milepost 255.4; (2) over D&M, a distance of approximately 5.75 miles from D&M's junction with CMRY near Total Refinery in Bay City, MI, north to a point near milepost 3.4 and the Kawkawlin River in Kawkawlin, MI;⁵ (3) over CSX Transportation, Inc. (CSXT) for overhead trackage rights over approximately 2.9 miles of rail line owned by CSXT, from milepost BBO 7 at or near the Mershon Switch east to milepost CB 1 near the Saginaw Yard (a distance of approximately 1.7 miles), then from milepost CB 1 southeast to milepost CC 2.2, at or near the Hoyt Diamond (a distance of approximately 1.2 miles), at which point HESR would connect with the former CMRY main line;⁶ and (4) over CSXT for about 4.0 miles in Saginaw, MI, from the clearance point at the intersection of the CMRY/CSXT connection track of the Grand Rapids Wye Track, through CSXT's Saginaw main, yard, and connection trackage to CSXT's ownership point at the connection with HESR at Saginaw (milepost CBB 2.0) on CSXT's Bad Axe Subdivision.⁷

Finally, HESR is accepting assignment of trackage rights over lines of CMRY

operating rights over and through, the Bay City Yard Line. HESR will acquire CMRY's right to operate over the Bay City Yard Line, but D&M will remain the owner of the real property and Lake State will retain its easement.

³ This is the entire rail trackage of CMRY, except for a 1.77-mile segment that was approved for abandonment in *Central Michigan Railway Company-Abandonment Exemption—in Saginaw County, MI*, STB Docket No. AB-308 (Sub-No. 3X) (STB served Oct. 31, 2003).
