### General Wage Determination Publication

General wage determinations issued under the Davis-Bacon and related Acts, including those noted above, may be found in the Government Printing Office (GPO) document entitled "General Wage Determinations Issued Under The Davis-Bacon And Related Acts". This publication is available at each of the 50 Regional Government Depository Libraries and many of the 1,400 Government Depository Libraries across the country.

General wage determinations issued under the Davis-Bacon and related Acts are available electronically at no cost on the Government Printing Office site at [www.access.gpo.gov/davisbacon](http://www.access.gpo.gov/davisbacon). They are also available electronically by subscription to the FedWorld Bulletin Board System of the National Technical Information Service (NTIS) of the U.S. Department of Commerce at 1-800-363-2068.

Hard-copy subscriptions may be purchased from: Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, (202) 512-1800.

When ordering hard-copy subscription(s), be sure to specify the State(s) of interest, since subscriptions

may be ordered for any or all of the six separate volumes, arranged by State. Subscriptions include an annual edition (issued in January or February) which includes all current general wage determinations for the States covered by each volume. Throughout the remainder of the year, regular weekly updates will be distributed to subscribers.

Signed at Washington, DC this 28th day of June 2001.

**Carl J. Poleskey,**

*Chief, Branch of Construction Wage Determinations.*

### NUCLEAR REGULATORY COMMISSION

#### Notice of Public Meeting to Solicit Stakeholder Input on the Use of Risk Information in the Nuclear Materials and Waste Regulatory Process: Case Study on the Paducah Gaseous Diffusion Plant Seismic Upgrades

**AGENCY:** Nuclear Regulatory Commission.

**ACTION:** Notice of meeting.

**SUMMARY:** The Nuclear Regulatory Commission's (NRC's) Office of Nuclear Materials Safety and Safeguards is developing criteria for determining when risk information should be used in the regulation of nuclear materials and waste. As part of this effort, the NRC staff is conducting case studies on a spectrum of activities in the nuclear materials and waste arenas, including gaseous diffusion plants (GDPs). The purpose of the case studies is (1) to illustrate what has been done and what could be done in the materials and waste arenas to alter the regulatory approach in a risk-informed manner and (2) to establish a framework for using a risk-informed approach in the materials and waste arenas by testing a set of draft screening criteria, and determining the feasibility of safety goals.

NRC staff is in the initial phase of its case study on GDPs. Specifically, this case study is focusing on NRC and licensee activities associated with seismic upgrades for the Paducah GDP. The purpose of this meeting is to: (1) communicate to stakeholders the status of this case study, and (2) to solicit recommendations and comments on how NRC should proceed with the case study, apply or revise the draft screening criteria, develop safety goals, and incorporate risk information into its regulatory program. The tentative agenda for the meeting is as follows:

1. Opening remarks.

2. Provide background information on the case study effort.

3. Present status of case study.

4. Receive comments, feedback, and recommendations.

5. Closing remarks.

The meeting is open to the public; all interested parties may attend and provide comments. Persons who wish to attend the meeting should contact Marissa Bailey no later than July 26, 2001.

**DATES:** The meeting will be held on July 31, 2001, from 1:30 p.m. to 4:30 p.m., in the U.S. Nuclear Regulatory Commission Auditorium, 11545 Rockville Pike, Rockville, MD 20852.

#### FOR FURTHER INFORMATION CONTACT:

Marissa Bailey, Mail Stop T-8-A-23, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Telephone: (301) 415-7648; Internet: MGB@NRC.GOV.

**SUPPLEMENTARY INFORMATION:** The NRC staff's case study approach, the draft screening criteria, and the case study areas under consideration are described in the "Plan for Using Risk Information in the Materials and Waste Arenas: Case Studies" which has been published in the **Federal Register** (65 FR 66782, November 7, 2000). Copies of this plan are also available on the Internet at <http://www.nrc.gov/NMSS/IMNS/riskassessment.html>. Written requests for single copies of this plan may also be submitted to the U.S. Nuclear Regulatory Commission, Office of Nuclear Materials Safety and Safeguards, Risk Task Group, Mail Stop T-8-A-23, Washington, DC 20555-0001.

Dated at Rockville, MD, this 29th day of June, 2001.

For the Nuclear Regulatory Commission.

**Lawrence E. Kokajko,**

*Section Chief, Risk Task Group, Office of Nuclear Material Safety and Safeguards.*
