No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid OMB control number.

SUPPLEMENTARY INFORMATION: As part of its continuing effort to reduce paperwork burdens, as required by the Paperwork Reduction Act (PRA) of 1995 (44 U.S.C. 3501–3520), the FCC invited the general public and other Federal Agencies to take this opportunity to comment on the following information collection. Comments are requested concerning: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology. Pursuant to the Small Business

Paperwork Relief Act of 2002, Public Law 107–198, see 44 U.S.C. 3506(c)(4), the FCC seeks specific comment on how it might “further reduce the information collection burden for small business concerns with fewer than 25 employees.”

OMB Control Number: 3060–0004.

Title: Sections 1.1307 and 1.1311, Guidelines for Evaluating the Environmental Effects of Radiofrequency Exposure.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Individuals or households, business or other for-profit, not-for-profit institutions, and State, local or Tribal government.

Number of Respondents and Responses: 233,596 respondents; 233,596 responses.

Estimated Time per Response: 0.0833 hours (5 minutes)—20 hours.

Frequency of Response: On occasion reporting requirement and third-party disclosure requirement.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this Information collection is contained in 47 U.S.C. 154, 302, 303, and 307.

Total Annual Burden: 26,005 hours.

Total Annual Costs: \$1,958,335.

Needs and Uses: The Commission will submit this revision of a currently approved information collection to the Office of Management and Budget (OMB) after this 60-day comment period in order to obtain the full three-year clearance.

This information collection is a result of responsibility placed on the FCC by the National Environmental Policy Act (NEPA) of 1969. NEPA requires that each federal agency evaluate the impact of “major actions significantly affecting the quality of the human environment.” It is the FCC’s opinion that this is the most efficient and reasonable method of complying with NEPA with regard to the environmental issue of radiofrequency radiation from FCC-regulated transmitters.

To account for rule changes implemented by 2019 rulemaking item FCC 19–126, ET Docket Nos. 03–137 and 13–184, the Commission had previously estimated the burden to respondents for the collection of information in two components: the recurring annual burden, and the one-time burden of transitioning to the rule changes for existing parties. The period for transition to those rule changes has now passed, and so the Commission has now revised its estimates to remove consideration of the one-time transition burden.

To update burden estimates based on the most recently available data, the Commission has also adjusted the total number of respondents/responses, the total annual hourly burden, and the total annual costs from the previous estimates, based on licensing data for calendar year 2022.
