Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by June 24, 2013.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 17 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was made on the merits of each case and made only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all, of these drivers are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

BILLING CODE 4910-EX-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2013-0039]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 Code of Federal Regulations (CFR), this document provides the public notice that by documents dated April 2, 2013, and April 24, 2013, the City of Burlington, WI (City), and Wisconsin Central Ltd. (WCL) have jointly petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 222, Use of Locomotive Horns at Public Highway-Rail Grade Crossings. FRA assigned the petition Docket Number FRA-2013-0039.

The City and CL (jointly referred to as Petitioners) seek a waiver from the requirements of 49 CFR 222.41(c)(2)(i)(B), which provides that a detailed plan for quiet zone improvements must be filed with FRA by June 24, 2008, in order to continue existing locomotive horn restrictions. The Petitioners also seek a waiver from the requirements of 49 CFR 222.41(c)(3), which provides that locomotive horn restrictions may continue until June 24, 2013, for a pre-rule quiet zone that was not able to be established by automatic approval, had been continued under the provisions of 49 CFR 222.31(c)(1) and 49 CFR 222.31(c)(2), and for which the State agency had provided a comprehensive statewide implementation plan. Specifically, the Petitioners request that the City be granted permission to correct the detailed plan that FRA has on file. The Petitioners also wish to retain the present locomotive horn restriction as trains approach the public highway-rail grade crossings at Roberts Street (DOT #689851C), Adams Street (DOT #689853R), Jefferson Street (DOT #689854X), Milwaukee Avenue (DOT #689857T), and Chestnut Street (DOT #689856L) until June 24, 2015.
