SUPPLEMENTARY INFORMATION:

A. Purpose

Federal Acquisition Regulation clause 52.223-2, Affirmative Procurement of Biobased Products Under Service and Construction Contracts, requires prime contractors to report annually the product types and dollar values of U.S. Department of Agriculture (USDA)-designated biobased products purchased to the System for Award Management (SAM) Web site. The information reported by prime contractors enables Federal agencies to report annually to the Office of Federal Procurement Policy (OFPP) concerning actions taken to implement and measure progress in carrying out the preference for biobased products required under section 9002 of the Farm Security and Rural Investment Act of 2002, codified at 7 U.S.C. 8102.

B. Annual Reporting Burden

To determine the number of contractors performing construction and service contracts that may involve the purchase of USDA-designated biobased products, fiscal year 2016 data in the Federal Procurement Data System (FPDS) was reviewed to calculate the number entities with unique DUNS numbers that were awarded contracts for the following selected Product Services Codes: A—Research and Development; F—Natural Resources Management; J—Maintenance, Repair, and Rebuilding of Equipment; M—Operation of Government-Owned Facility; S—Utilities and Housekeeping Services; T—Photographic, Mapping, Printing, and Publication Services; Y—Construction of Structures and Facilities; and Z—Maintenance, Repair or Alteration of Real Property. The clause at FAR 52.223-2 will apply to the majority of the contract actions in the selected PSCs.

The estimated total burden is as follows:

Respondents: 51,457.

Responses per Respondent: 5.

Total Annual Responses: 257,285.
