

This program evaluation will assist CDC in determining if the *Be Antibiotics Aware* media campaign, along with partner outreach, was successful in raising knowledge and awareness and motivating behavior change among the

intended consumer and HCP audiences in select markets. The information gathered from this evaluation will also be used to inform refinement and implementation of the campaign (materials and tactics).

CDC requests OMB approval for an estimated 842 annual burden hours. There is no cost to respondents other than their time to participate.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Consumer Audiences	BAA Consumer Pre-Campaign Web Survey	473	1	20/60
Consumer Audiences	BAA Consumer Post-Campaign Web Survey	473	1	20/60
HCP Audiences	BAA HCP	788	1	20/60
Consumer Audiences	BAA Consumer Pre-Campaign Web Survey	473	1	20/60
	Pre-Campaign Web Survey			
HCP Audiences	BAA HCP Post-Campaign Web Survey	788	1	20/60

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled “Synopsis of State Dental Public Health Programs” to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on May 6, 2022 to obtain comments from the public and affected agencies. CDC received one comment. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agency’s estimate of the burden of the

proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written comments within 30 days of notice publication.

Proposed Project

Synopsis of State Dental Public Health Programs—Existing Collection in use without an OMB Control Number—National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

This request is to collect information about human resources, programs, and infrastructure in oral health departments within a state health department for all 50 states and Washington, DC. Oral health affects our ability to eat, speak, smile, and show emotions. Oral health also affects a person’s self-esteem, school performance, and attendance at work or school. Oral diseases—which range from cavities and gum disease to oral cancer—cause pain and disability for millions of Americans and cost taxpayers billions of dollars each year. CDC supports states in their efforts to reduce oral disease and improve oral health by using effective interventions. CDC provides state and territorial health departments with funding, guidance, and technical assistance to monitor oral disease across populations and to implement and evaluate oral health interventions.

The Association of State and Territorial Dental Directors (ASTDD) is a national non-profit organization representing the directors and staff of state public health agency programs for oral health. It was organized in 1948 and is one of 20 affiliates of the Association of State and Territorial Health Officials (ASTHO). ASTDD formulates and promotes the establishment of national dental public health policy. In addition, ASTDD; assists state dental programs in the development and implementation of programs and policies for the prevention of oral diseases; builds awareness and strengthens dental public health professionals’ knowledge and skills by developing position papers and policy statements; provides information on oral health to health officials and policy makers; and conducts

conferences for the dental public health community. The word "state" is used to indicate U.S. states, the District of Columbia, U.S. territories, and other U.S.-associated jurisdictions, except where explicitly noted otherwise.

In 1994, ASTDD originated the annual Synopses of Dental Programs to share information among dental directors and partners. The Synopses of State Oral Health Programs (hereby referred to as State Synopses) described program

activities and successes and the challenges that programs faced during the previous year. In 1997, ASTDD changed the format to a more structured questionnaire. Since 1998, ASTDD has been supported to collect data through cooperative agreements with CDC. This collection is necessary because no other agency or entity produces similar analyses or reports, and the Synopsis questionnaire is the only national data collection source tracking states' efforts

to improve oral health and contributions to progress toward the national targets for Healthy People objectives for oral health.

OMB approval is requested for three years. CDC requests approval for an estimated 299 annual burden hours. Participation is voluntary and there are no costs to respondents other than their time.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-23-23AA; Docket No. CDC-2022-0122]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a proposed information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled DELTA Achieving Health Equity through Addressing Disparities (AHEAD) Cooperative Agreement Evaluation. This project aims to collect information from DELTA AHEAD recipients to assess implementation and program impact, and to further understand the facilitators, barriers, and other critical

factors associated with program activities.

DATES: CDC must receive written comments on or before December 16, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2022-0122 by either of the following methods:

- **Federal eRulemaking Portal:** www.regulations.gov. Follow the instructions for submitting comments.
- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without change, all relevant comments to www.regulations.gov.

Please note: Submit all comments through the Federal eRulemaking portal (www.regulations.gov) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; Telephone: 404-639-7570; Email: omb@cdc.gov.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register**

concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and
5. Assess information collection costs.

Proposed Project

DELTA Achieving Health Equity through Addressing Disparities (AHEAD) Cooperative Agreement Evaluation—New—National Center for Injury Prevention and Control (NCIPC), Centers for Disease Control and Prevention (CDC).
