Public Meeting Topics

Discussions pertaining to the 3D surrogate vehicle will be focused on what features, if any, will need to be adjusted to allow it to appear realistic to automotive sensing systems. NHTSA does not intend to discuss how it may use 3D surrogate vehicles beyond inclusion is its research programs.

Surrogate vehicle feedback forms will be available on-site, and will request information about, but not be limited to, the following topics:

1. Are the radar return characteristics of the surrogate, including radar cross section (RCS), adequately realistic from each approach angle, depth, and height relative to the ground?
2. Are the visual characteristics, including the overall shape, reflectivity, contrasting features, of the surrogate adequately realistic?
3. Is the surrogate able to adequately support lidar-based safety systems?
4. Is the presence of the robotic platform beneath the surrogate apparent to the automotive sensing system (radar, visual, etc.)? If so, what effect will the platform's presence expected to have on safety system performance?
5. How consistent is the classification of the surrogate (e.g., distance to the surrogate at which the safety system classifies the surrogate as being an actual vehicle, and does the classification remain stable during the test vehicle's approach to the surrogate). How does this consistency compare to that expected by the overall light vehicle population? What effect does the panel misalignment have on surrogate classification?
6. From an industry perspective, what is the preferred rank order of the following: absolute surrogate vehicle

realism, strikeability/durability, or ease of reassembly?

Issued in Washington, DC, under authority delegated by 49 CFR 1.95.

Nathaniel Beuse,

Associate Administrator for Vehicle Safety Research.

SUPPLEMENTARY INFORMATION:

Title: Hizballah Financial Sanctions Regulations—Report on Closure by U.S. Financial Institutions of Correspondent Accounts and Payable-Through Accounts.

OMB Number: 1505–0255.

Abstract: Pursuant to the Hizballah Financial Sanctions Regulations, 31 CFR part 566 (the Regulations), the Secretary of the Treasury may, among other things, prohibit a U.S. financial institution from opening or maintaining a correspondent account or a payable-through account in the United States for a foreign financial institution that the Secretary has determined has engaged in certain activities involving Hizballah and whose name is added to the Hizballah Financial Sanctions Regulations List (HFSR List) on OFAC's Web site (www.treasury.gov/ofac). Section 566.504 of the Regulations authorizes certain transactions related to the winding down and closing of such a correspondent account or payable-through account. Section 566.506(b) includes a reporting requirement pursuant to which a U.S. financial institution that maintained such an account must file a report with OFAC that provides full details on the closing of each such account within 30 days of the closure of the account. This collection of information assists in verifying that U.S. financial institutions are complying with prohibitions on maintaining correspondent accounts or payable-through accounts for foreign financial institutions listed on the HFSR List. The reports will be reviewed by the U.S. Department of the Treasury and may be used for compliance and enforcement purposes by the agency.

Current Actions: There are no changes being made to the collection at this time.

Type of Review: Extension of a currently approved collection.

Affected Public: U.S. financial institutions operating correspondent or payable-through accounts for foreign financial institutions.

Estimated Number of Respondents: Because this collection of information is a report that must be filed by U.S. financial institutions closing correspondent or payable-through accounts for a foreign financial institution pursuant to section 566.504 after OFAC adds the name of the foreign financial institution to the HFSR List, OFAC cannot predict the number of respondents for the section 566.504(b) reporting requirement at this time. From the date this reporting requirement was implemented pursuant to the Regulations (April 15, 2016) through June 9, 2016, OFAC did not add the name of any foreign financial institution to the HFSR List, and the number of respondents to this collection was therefore zero. For future PRA submissions, OFAC will continue to report retrospectively on the number of respondents during the previous reporting period.

Estimated Time per Respondent: 2 hours per response.

Estimated Total Annual Burden Hours: Because the section 566.504(b) reporting requirement applies to those U.S. financial institutions that operate correspondent or payable-through accounts for a foreign financial institution whose name is added to the HFSR List, OFAC cannot predict the response rate for the section 566.504(b) reporting requirement at this time. For future PRA submissions, OFAC will report retrospectively on the response rate during the previous reporting period.

The following paragraph applies to all of the collections of information covered by this notice:

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless the collection of information displays a valid OMB control number. Books or records relating to a collection of information must be retained for five years.

Request for Comments

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval. All comments will become a matter of public record. Comments are invited on: (a) Whether the collection of information is necessary for the proper

performance of the functions of the agency, including whether the information has practical utility; (b) the accuracy of the agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology; and (e) estimates of capital or start-up costs and costs of operation, maintenance, and purchase of services to provide information.

Andrea Gacki,

Acting Director, Office of Foreign Assets Control.
