DEPARTMENT OF HEALTH AND HUMAN SERVICES**Substance Abuse and Mental Health Services Administration****Agency Information Collection Activities: Submission for OMB Review; Comment Request**

Periodically, the Substance Abuse and Mental Health Services Administration

(SAMHSA) will publish a list of information collection requests under OMB review, in compliance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). To request a copy of these documents, call the SAMHSA Reports Clearance Officer on (301) 443-7978.

2001 National Household Survey on Drug Abuse—(0930-0110, Revision)—SAMHSA's National Household Survey on Drug Abuse (NHSDA) is a survey of the civilian, noninstitutionalized population of the United States 12 years of age and older. The data are used to determine the prevalence of use of tobacco products, alcohol, illicit substances, and illicit use of prescription drugs. The results are used by SAMHSA, the Office of National Drug Control Policy, Federal government agencies, and other organizations and researchers to establish policy, direct program activities, and better allocate resources.

For the 2001 NHSDA, additional questions in the following substantive areas are planned: serious mental illness for adults; one question regarding state

Children's Health Insurance Program (CHIP) coverage for respondents (12 to 19 years old); revised questions on tobacco dependence; questions on marketplace issues and knowledge of state laws regarding marijuana use; questions on smoking "bidis" (flavored cigarettes); and two questions that use the "item count" methodology to estimate use of specific hard-core drugs. The remaining modular components of the NHSDA questionnaire will remain essentially unchanged except for minor modifications to wording and selective elimination of sufficient questions to allow for the additional burden of the questions listed above.

As in 1999 and 2000, the sample size of the survey for 2001 will be sufficient to permit prevalence estimates for each of the fifty states and the District of Columbia. The total annual burden estimate is 88,563 hours as shown below:

	No. of respondents	Responses/ respondent	Average burden/re-sponse (hrs.)	Total burden hours
Household Screener	210,000	1	0.083	17,430
NHSDA Interview	70,000	1	1.000	70,000
Screening Verification	6,405	1	0.067	429
Interview Verification	10,500	1	0.067	704
Total				88,563

Written comments and recommendations concerning the proposed information collection should be sent within 30 days of this notice to: SAMHSA Desk Officer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, D.C. 20503.

Dated: July 19, 2000.

Richard Kopanda,

Executive Officer, SAMHSA.

Wilderness Study Area Management; Year Round Closure of Pollock Bench Trail to Mountain Biking

AGENCY: Bureau of Land Management, Department of the Interior.

ACTION: Notice of intent to close Pollock Bench Trail to mountain bike use in the Black Ridge Canyons Wilderness Study Area.

SUMMARY: This order, issued under the authority of section 303 of the Federal Land Policy and Management Act of 1976 and 43 CFR 8364.1, prohibits use of the Pollock Bench Trail by mountain bikes in the Black Ridge Canyons Wilderness Study Area. The identified public lands are in Colorado, Mesa County, under the management jurisdiction of the Bureau of Land Management, Grand Junction Field Office. The area is located in T.1 N., R.3 W., Sections 14, 15, 22, and 27.

EFFECTIVE DATES: The closure shall be in effect year round beginning July 31, 2000 and shall remain in effect permanently.

SUPPLEMENTARY INFORMATION: BLM administers approximately 75,000 acres in the Black Ridge Canyons Wilderness Study Area (WSA). Contained within this WSA is the Pollock Bench Trail which has been open to mountain biking since the area became a WSA in the early 1980's. At that time, all types of use, including mountain bike use of the trail was very light. In recent years, the trail has become increasingly popular for mountain biking due to its close proximity to the cities of Fruita and Grand Junction. As a result of the large numbers of bikers now using the area, the trail is becoming wider in many places and off-trail tracks are very numerous. Riders are leaving the existing track along the majority of the trail. Numerous tracks can be seen passing through or around vegetation, leaving the trail for no apparent reason, or to access overlook spots. This use has created impairment of the areas wilderness values as defined in the BLM's Interim Management Policy and Guidelines for Lands Under Wilderness Review. Additionally, the cumulative impact of a higher and higher percentage of bikers using the trail is negatively affecting the recreation experience and safety of other trail users. This closure is necessary to protect the area's wilderness characteristics.

Notice of this closure will be posted at the BLM's Grand Junction Field Office as well as on-the-ground at the Pollock Bench Trailhead and at the Wilderness Study Area boundary.

Penalties: Violations of this restriction order are punishable by fines not to exceed \$1,000 and/or imprisonment not to exceed 12 months.
