Privacy Act of 1974; System of Records

AGENCY: Office of the Chief Financial Officer (OCFO), Environmental Protection Agency (EPA).

ACTION: Rescinding of a system of records notice.

SUMMARY: The U.S. Environmental Protection Agency's (EPA), Office of the Chief Financial Officer, Office of Technology Solutions is giving notice that it proposes to rescind a system of records pursuant to the provisions of the Privacy Act of 1974. The Superfund Cost Recovery Package Imaging and On-Line System (SCORPIOS) system of records (EPA–39) is being rescinded because the e-Recovery system of records (EPA–90) replaces it. EPA is now using the e-Recovery system to organize and produce reports to recover costs associated with its response to releases or threatened releases of hazardous substances, or discharges or threatened discharges of oil.

DATES: EPA stopped maintaining this system of records on May 08, 2023. The e-Recovery system replaced SCORPIOS. The public comment period for the e-Recovery SORN closed on July 12, 2021.

Do not submit information that you consider to be CUI or otherwise protected through <https://www.regulations.gov>. The <https://www.regulations.gov> website is an "anonymous access" system for the EPA, which means the EPA will not know your identity or contact information. SUPPLEMENTARY INFORMATION: EPA has the authority to recover costs associated with its response to releases or threatened releases of hazardous substances, or discharges or threatened discharges of oil. To support the recovery of certain removal costs associated with threatened or actual discharges of oil, EPA submits a Cost Recovery Package (CRP) to the U.S. Coast Guard (USCG). Previously, EPA used SCORPIOS to prepare the CRP; however, because SCORPIOS uses old technology that has become difficult and expensive for the Agency to maintain, the SCORPIOS system (EPA–39) is replaced with the more modern e-Recovery system (EPA–90). The information previously stored in SCORPIOS is now stored in the e-Recovery system. Information about the e-Recovery system and its system of records notice was published in the **Federal Register** (86 FR 31,307) on June 11, 2021.

FEDERAL COMMUNICATIONS COMMISSION

[OMB 3060–1080; FR ID 168517]

Information Collection Being Reviewed by the Federal Communications Commission

AGENCY: Federal Communications Commission.

ACTION: Notice and request for comments.

SUMMARY: As part of its continuing effort to reduce paperwork burdens, and as required by the Paperwork Reduction Act (PRA) of 1995, the Federal Communications Commission (FCC or the Commission) invites the general public and other Federal agencies to take this opportunity to comment on the following information collection. Comments are requested concerning:

whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; the accuracy of the Commission's burden estimate; ways to enhance the quality, utility, and clarity of the information collected; ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology; and ways to further reduce the information collection burden on small business concerns with fewer than 25 employees.

DATES: Written PRA comments should be submitted on or before November 6, 2023. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all PRA comments to Nicole Ongele, FCC, via email PRA@fcc.gov and to nicole.ongele@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information about the information collection, contact Nicole Ongele, (202) 418–2991.

SUPPLEMENTARY INFORMATION: The FCC may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the PRA that does not display a valid Office of Management and Budget (OMB) control number.

OMB Control Number: 3060–1080.

Number of Respondents and Responses: 58 respondents; 2,956 responses.

Estimated Time per Response: 0.5–10 hours (4.5 hours average).

Frequency of Response: On occasion reporting requirement and third-party disclosure requirement.

Total Annual Burden: 9,507 hours.

Total Annual Cost: No Cost.

Needs and Uses: The Commission will submit this expiring information

collection to the Office of Management Budget (OMB) after this 60-day comment period in order to obtain the full three year clearance from them. The information sought assists 800 MHz licensees in preventing or resolving interference and enable the Commission to implement its rebanding program. Under that program, certain licensees are being relocated to new frequencies in the 800 MHz band, with all rebanding costs paid by T-Mobile. The Commission's overarching objective in this proceeding is to eliminate interference to public safety communications. As demonstrated in the Commission's 2020 Report and Order in this rulemaking proceeding (FCC 20–61), the Commission is actively accelerating the conclusion of the 800 MHz rebanding program.

Federal Communications Commission.
