

CS#5 is located 17 miles west of Cloquet, Minnesota. The area is designated attainment for all criteria pollutants. CS#5 is owned and maintained by Great Lakes Gas on privately-owned fee land within the exterior boundaries of the Fond du Lac Band of Lake Superior Chippewa Indian Reservation. EPA is responsible for issuing and enforcing any air quality permits for the source until such time that the Fond du Lac Band of Lake Superior Chippewa Indian Tribe has EPA approval to do so.

CS#5 is subject to Title V because it has the potential to emit greater than 100 tons per year of nitrogen oxide and carbon monoxide. Great Lakes Gas submitted to EPA on November 23, 2009, a Title V permit application to renew its 2005 title V operating permit for CS#5. On November 15, 2010, EPA published a draft Title V permit to operate for public comment. The public comment period ended on December 15, 2010. EPA did not receive any comments on the draft title V permit, and the permit became effective on February 27, 2011.

EPA is not aware of any outstanding enforcement actions against Great Lakes Gas and believes the issuance of this permit is non-controversial.

B. What is the purpose of this notice?

EPA is notifying the public of the issuance of the Great Lakes Gas CS#5 Title V permit.

Dated: February 28, 2011.

Susan Hedman,
