DEPARTMENT OF HOMELAND SECURITY**Federal Emergency Management Agency****[Docket ID: FEMA-2020-0014; OMB No. 1660-0132]****Agency Information Collection Activities: Submission for OMB Review; Comment Request; Consolidated FEMA-National Training and Education Division (NTED) Level 3 Training Evaluation Forms****AGENCY:** Federal Emergency Management Agency, DHS.**ACTION:** 30 Day notice and request for comments.

SUMMARY: The Federal Emergency Management Agency (FEMA), as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on a reinstatement, with change, of a previously approved information collection for which approval has expired. The reinstatement includes minor changes to survey questions in order for the agency to better assess changes to students' behaviors on the job. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the use of the three separate Kirkpatrick Training Program Evaluation Level 3 instruments by three geographically separated National Training and Education (NTED) Training Organizations: The Training Partners Program Branch (TPP) located at FEMA Headquarters, Washington, DC, the Center for Domestic Preparedness (CDP) located in

Anniston, AL, and the Emergency Management Institute (EMI) located in Emmitsburg, MD.

DATES: Comments must be submitted on or before December 28, 2020.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: For any questions, please contact Dalia Abdelmeguid at FEMA-NTES@fema.dhs.gov or via phone 202-431-7739. You may contact the Information Management Division for copies of the proposed collection of information at email address: FEMA-Information-Collections-Management@fema.dhs.gov.

SUPPLEMENTARY INFORMATION:

While these three instruments contain five common questions or data sets, other questions are required due to unique occupational and operational needs of their respective customers and the different course/program content or subject material that is designed to develop interoperable National Preparedness Core Capabilities, Community Lifelines, and/or Recovery Sector capabilities across and among various responder communities. Level 3 data is used to measure and monitor transfer or retention of knowledge, skills and abilities obtained during training to the students' work environment and/or organizational work environment. Data collected is utilized to continuously improve course material, delivery and to inform key stakeholders on course/program performance in accordance with the Government Performance and

Results Act (GPR) Modernization Act of 2010 (GPRAMA).

FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance in accordance with the requirements of the Paperwork Reduction Act of 1995. The submission will describe the nature of the information collection, the categories of respondents, the estimated burden (*i.e.*, the time, effort and resources used by respondents to respond) and cost, and the actual data collection instruments FEMA will use.

In support of Presidential Policy Directive (PPD-8) National Preparedness, the National Preparedness Goal (NPG) and National Preparedness System (NPS) FEMA's NTED provides program oversight of three geographically separated training organizations: TPP in Washington DC, CDP in Anniston, AL, and EMI in Emmitsburg, MD. These organizations with the National Domestic Preparedness Consortium (NDPC) and the Continuing Training Grant (CTG) members comprise the National Training and Education System (NTES) and are organized to optimize the 6 U.S.C. 748 required National Training Program on behalf of the FEMA Administrator in collaboration with other Federal agencies. Working collectively as a NTES, the training capabilities and capacity of the Nation increase the planning, capability and capacity to design, develop, deliver and evaluate training and education solutions to build sustainable and interoperable National Core Capabilities, Community Lifelines, and Recovery Sectors that prevent, protect, mitigate, respond and recover the Nation from acts of terrorism and natural disasters.

As part of the Federal Government, FEMA's NTED and component organizations have developed these training evaluation instruments to measure their individual and collective program performance as required by the GPRA Modernization Act of 2010. Paragraph(a) of 31 U.S.C. 1115 covers Federal Government and Agency Performance Plans while paragraph (b) covers Agency Performance Plans (6) requires a balanced set of performance indicators to be used in measuring or assessing progress toward each performance goal, including, as appropriate, customer service, efficiency, output, and outcome indicators.

This information collection expired on February 28, 2019. FEMA is requesting a reinstatement, with change, of a previously approved information collection for which approval has expired.

This proposed information collection previously published in the **Federal Register** on May 26, 2020, at 85 FR 31538 with a 60-day public comment period. FEMA received two non-germane comments. FEMA is requesting a reinstatement, with change, of a previously approved information collection for which approval has expired. The purpose of this notice is to notify the public that FEMA will submit the information collection abstracted below to the Office of Management and Budget for review and clearance.
