SUPPLEMENTARY INFORMATION:

A. Purpose

GSA requires organizations desiring to do business with GSA for various supplies and services to provide procurement-related information through solicitations issued in accordance with the Federal Acquisition Regulation (FAR) Part 12, 14, 15 and 16 procedures. Using solicitation methods such as Requests for Proposals (RFP), Requests for Information (RFI), and Broad Agency Announcements (BAA), GSA requests information from prospective offerors such as pricing information, delivery schedule compliance, and evidence that the offeror has the resources (both human and financial) to accomplish requirements. Much of the solicitation information collected is covered by FAR clauses and the separate information collection approvals associated with them. Other GSA solicitation requirements call for more detailed or technical information to be provided, such as project management or sustainability plans, and drive the need for this information collection.

B. Annual Reporting Burden

Respondents: 338,465.
Responses per Respondent: 1.
Total Responses: 338,465.
Hours per Response: 2.
Total Burden Hours: 676,930.

C. Public Comments

Public comments are particularly invited on: Whether this collection of information is necessary, whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

Obtaining Copies of Proposals: Requesters may obtain a copy of the information collection documents from the Regulatory Secretariat Division, at GSARegSec@gsa.gov. Please cite OMB Control No. 3090-0163, Contract Solicitation Information, in all correspondence.

[OMB Control No. 9000-0153; Docket No. 2023-0053; Sequence No. 8]

Submission for OMB Review; Federal Acquisition Regulation Part 11 Requirements

AGENCY: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Notice.

SUMMARY: Under the provisions of the Paperwork Reduction Act, the Regulatory Secretariat Division has submitted to the Office of Management and Budget (OMB) a request to review and approve a revision of a previously approved information collection requirement regarding certain Federal Acquisition Regulation (FAR) part 11 requirements.

DATES: DoD, GSA, and NASA will consider all comments received by December 21, 2023.

ADDRESSES: Written comments and recommendations for this information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under Review—Open for Public Comments" or by using the search function.

SUPPLEMENTARY INFORMATION:

A. OMB Control Number, Title, and any Associated Form(s)

OMB Control No. 9000-0153, Federal Acquisition Regulation Part 11 Requirements.

B. Need and Uses

DoD, GSA, and NASA are combining OMB Control Nos. by FAR part. This consolidation is expected to improve industry's ability to easily and efficiently identify burdens associated with a given FAR part. The review of the information collections by FAR part allows improved oversight to ensure there is no redundant or unaccounted for burden placed on industry. Lastly, combining information collections in a given FAR part is also expected to reduce the administrative burden associated with processing multiple information collections.

This justification supports the extension of OMB Control No. 9000-0153 and combines it with the previously approved information collections under OMB Control No. 9000-0043, with the new title "Federal Acquisition Regulation Part 11 Requirements". Upon approval of this consolidated information collection, OMB Control No. 9000-0043 will be discontinued. The burden requirements previously approved under the discontinued number will be covered under OMB Control No. 9000-0153.

This clearance covers the information that offerors or contractors must submit to comply with the following FAR requirements:

- FAR 52.211-7, Alternatives to Government-Unique Standards. This solicitation provision permits offerors to propose alternatives to Government-unique standards in response to Government solicitations. When an offeror proposes a voluntary consensus standard as an alternative to a Government-unique standard included in a solicitation, the offeror must furnish data and/or information regarding the alternative in sufficient detail for the Government to determine if it meets the Government's requirements. This provision is prescribed in FAR 11.107 for use when a solicitation uses Government-unique standards and the agency uses the transaction-based reporting method to report its use of voluntary consensus standards to the National Institutes of Standards and Technology (NIST). This provision is optional for use if an agency uses the categorical method to report to NIST. In accordance with OMB Circular A-119, Federal Participation in the Development and Use of Voluntary Consensus Standards and in Conformity

Assessment Activities, and section 12(d) of the National Technology Transfer and Advancement Act of 1995 (Pub. L. 104–113, 15 U.S.C. 272 note), agencies must use voluntary consensus standards, when they exist, in lieu of Government-unique standards, except where inconsistent with law or otherwise impractical. The information collected from offerors will be used by Federal agencies to determine if voluntary consensus standards will satisfy the Government's needs for a particular solicitation.

- FAR 52.211–8, Time of Delivery; and 52.211–9, Desired and Required Time of Delivery. These time of delivery clauses may be used by contracting officers to set forth a required delivery schedule and to allow offerors to propose an alternative delivery schedule. Contracting officers use the collected information to ensure supplies or services are obtained in a timely manner.

BILLING CODE 6820–EP–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Administration for Children and Families

Proposed Information Collection Activity; Healthy Marriage and Responsible Fatherhood Performance Measures and Additional Data Collection (Office of Management and Budget #0970–0566)

AGENCY: Office of Planning, Research, and Evaluation, Administration for

Children and Families, Department of Health and Human Services.

ACTION: Request for public comments.

SUMMARY: The Administration for Children and Families (ACF), Office of Family Assistance (OFA), is requesting an extension with changes to its approved collection and reporting of performance measures about program operations, services, and clients served through the Healthy Marriage (HM) and Responsible Fatherhood (RF) grant programs. In an effort to gain a greater understanding of how HMRF programs influence program participants and staff at an individual level, ACF proposes to add one open field to the quarterly narrative reports to capture information about the experiences of HMRF participants and/or staff. ACF is requesting to extend approval, with the implementation of this change, for 3 years.

DATES: *Comments due within 60 days of publication.* In compliance with the requirements of the Paperwork Reduction Act of 1995, ACF is soliciting public comment on the specific aspects of the information collection described above.

ADDRESSES: You can obtain copies of the proposed collection of information and submit comments by emailing OPREinfocollection@acf.hhs.gov. Identify all requests by the title of the information collection.

SUPPLEMENTARY INFORMATION:

Description: ACF proposes to continue collecting a set of Office of Management and Budget (OMB)-approved performance measures from all HMRF award recipients.

The HMRF performance measures collect standardized information in the following areas:

- Applicant characteristics;
- Program operations;
- Service delivery; and
- Participant outcomes:
 - Entrance survey, with five versions: (1) HM Program Entrance Survey for Adult-Focused Programs; (2) HM Program Entrance Survey for Youth-Focused Programs; (3) RF Program Entrance Survey for Community-Based Fathers; (4) RF Program Entrance Survey for Community-Based Mothers; and (5) RF Program Entrance Survey for Reentering Fathers.
 - Exit survey, with five versions: (1) HM Program Exit Survey for Adult-Focused Programs; (2) HM Program Exit Survey for Youth-Focused Programs; (3) RF Program Exit Survey for Community-Based Fathers; (4) RF Program Exit Survey for Community-Based Mothers;

and (5) RF Program Exit Survey for Reentering Fathers.

The measures were developed in 2014 after extensive review of the research literature and recipients' past measures. They were revised in 2020 based on a targeted analysis of existing measures, feedback from key audiences, and discussions with ACF staff and the 2015 cohort of recipients. OMB approved these revised measures in 2021 and has approved a handful of non-substantive changes since then.

ACF also proposes to continue the OMB-approved quarterly reporting on the following measures, with minor changes as described:

- Semi-annual Performance Progress Report (PPR), with two versions: (1) Performance Progress Report for HM Programs, and (2) Performance Progress Report for RF Programs; and
- Quarterly Performance Report (QPR), with two versions: (1) Quarterly Performance Progress Report for HM Programs, and (2) Quarterly Performance Progress Report for RF Programs. ACF proposes to add a new text box to the QPRs to gather qualitative narratives of the experiences of HMRF participants and/or staff. This information will help build ACF's understanding of how HMRF programs influence program participants and staff at an individual level.

ACF provides recipients with a web-based performance measures data collection system called nFORM 2.0 (Information, Family Outcomes, Reporting, and Management) to improve the efficiency of data collection and reporting and the quality of data. This system allows for streamlined and standardized submission of recipient performance data through regular progress reports and supports recipient-led and federal research projects.

ACF also proposes to continue the OMB-approved requirement for recipients to document their continuous quality improvement (CQI) planning and implementation using a CQI plan template that is completed outside of the nFORM system.

Respondents: Respondents include HM and RF award recipient staff and program applicants and participants (participants are called "clients").

Annual Burden Estimates: The estimated number of respondents for each instrument has been adjusted to reflect experiences in the field to date. There is no change to the average estimated time per response of any instrument.
